<b>Educational Activities:</b>					
<p>This post gives you an ideal opportunity to consolidate your general medicine knowledge, learn about symptom control and end of life care and develop your communication skills. You will receive a comprehensive induction, have regular meetings with your clinical supervisor and have ample opportunity to complete supervised learning events (SLEs). As the hospice is well staffed, there is also a good opportunity to arrange other educational experiences i.e. attend oncology clinics, work with the hospital palliative care team and work with the Macmillan nurses in the community. You will be able to develop your teaching skills through participating in our education programme and assist with teaching medical students that attend during their cancer care block.</p>					
<b>Other Comments (if appropriate):</b>					
<p>The F1 is exceptionally well supported in this rotation.</p> <p>This post is unbanded.</p>
