## Foundation Dentist Working Pattern

Please complete the timetable below to show when your FD is working at the Training Practice. Please remember that a normal working week in practice is **35 hours**, with no more than eight working hours in one day and no more than six working days in a week. If there is a Study Day, the practice working time is 27 hours in that week.

It may be acceptable for the working week to be *32 hours* every week IF there is no Fridays working in the practice in weeks with no Study Day. This will require active local monitoring at a practice level to ensure that your FD by the end of the year has worked an **average of 35 hours** per week.

**Please complete using 24-hour clock – please leave blank if the session is not a working one**

## Notes

Please use this section to tell us about any differing working patterns (such as working across two sites or any other additional information you need to share).

## Educational Supervisors Working Pattern

Please complete the timetable below to show each Educational Supervisor is present at the Practice. Educational Supervisors need to be present in the practice at the same time as the FD for a minimum of three days per week (or, in the case of joint ESs for a minimum of three days a week in the same practice in the aggregate).

**Clinical Supervisors – please list registrant details on page 4**

In the event of an ES not being present in practice for a clinical session, please provide a narrative summary about the clinical support your FD will access within the practice when an ES(s) is not available. Please note that a CS should have 3 years post qualification experience working in the UK within Primary or Secondary care. We need details for both planned/booked leave and emergency leave.

For some training practices joint ES working patterns may naturally provide crossover. For other training practices arrangements will be more complicated and require greater explanation.

## Proposed Nursing Support for your Foundation Dentist

It is important that your Foundation secures stable support from a suitably experienced dental nurse. NHS England Midlands request that the nurse(s) that work with your FD should be qualified unless there are truly exceptional circumstances (this must be discussed with your Scheme TPD and the Associate Dean).

We would not expect more than three nurses to be working with an FD in a typical week as this will negatively impact stability of support for your trainee.

Please list the details of nurses you anticipate will be working with your FD.

### Nurse One

<b>First Name</b>
