Educational Supervisor 3 – if applicable	

## Foundation Therapist Working Pattern

Please complete the timetable below to show when your FTs are working at the Training Practice. Please remember that a normal working week for an FD is **21 hours**, with no more than eight hours in any working. Every Friday is allocated against either NHSE Study Day or self-directed Learning Time (6 hours). This means that a training practice needs to provide **15 hours** clinical time per week for each FT.

At this stage you do not need to tell us individual FD working patterns. We just need to confirm that there is a total of **30 hours** surgery time available for your 2 FTs.

**Please complete using 24-hour clock – please leave blank if the session is not a working one**

## Notes

Please use this section to tell us about any differing working patterns (such as 2 x FD working on the same day in 2 different surgeries).

## Educational Supervisors Working Pattern

Please complete the timetable below to show each Educational Supervisor is present at the Practice. Educational Supervisors need to be present in the practice at the same time as the FTs for a minimum of three days per week (or, in the case of joint ESs for a minimum of three days a week in the same practice in the aggregate).

Clinical Supervisors – please list registrant details on page 4

In the event of an ES not being present in practice for a clinical session, please provide a narrative summary about the clinical support your FTs will access within the practice when an ES(s) is not available. We need details for both planned/booked leave and emergency leave. Please note that a CS should have 3 years post qualification experience working in the UK within Primary or Secondary care.

For some training practices joint ES working patterns may naturally provide crossover. For other training practices arrangements will be more complicated and require greater explanation.

## Proposed Nursing Support for your Foundation Therapist

It is important that your FT secures stable support from a suitably experienced dental nurse. NHS England Midlands request that the nurse(s) that work with your FT should be qualified unless there are truly exceptional circumstances (this must be discussed with your Scheme TPD and the Associate Dean).

We would not expect more than three nurses to be working with an FT in a typical week as this will negatively impact stability of support for your trainee.

Please list the details of nurses you anticipate will be working with your FT.
