Dental Core Training

Post: HEE East of England - Beds, Herts & Bucks OMFS Network (Northern Rotation) - DCT 1 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - East of England** Region.

2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

3. Location

Location 1

Luton and Dunstable University Hospital NHS FT

Oral and Maxillofacial Centre

Lewsey Road, Luton, Beds LU4 0DZ

Location 2

Bedford Hospital

Oral & Maxillofacial Surgery

South Wing, Kempston Road, Bedford MK42 9DJ

Location 3

Milton Keynes General Hospital

Oral and Maxillofacial Surgery

Standing Way, Eaglestone, Milton Keynes MK6 5LD

4. Specialities and/or clinical focus within post

The main specialities of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

One to one supervision in carrying out minor oral surgery under LA and GA

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 27, 28, 33, 36, 35, 40, 43, 47, 48, 4, 10, 12, 16, 17, 18, 22, 24)

Clinical deliverable 2:

Management of patients with complex medical conditions requiring treatment in oral and maxillofacial surgery in out-patient, day case and in-patient settings.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 6, 11, 13, 18, 19, 21, 25, 26, 30, 38, 42, 44, 52)

Clinical deliverable 3:

Close supervision in general out-patient clinics under the supervision of consultants

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 4, 5, 6, 9, 13, 15, 21, 22, 25, 26, 44)

Clinical deliverable 4:

Management of oral and maxillofacial emergencies and facial trauma

(Mapped to DCT Curriculum points: C3 Oral Surgery - 39, 12, 8, 11, 13, 15, 19, 30, 40, 45, 46, 48, 49, 50, 51)

Clinical deliverable 5:

Attendance of sub-specialty out-patient clinics and assistance in major maxillofacial operations in theatre - facial deformity, head and neck cancers, TMJ surgery, surgical dermatology and sialoendoscopy

(Mapped to DCT Curriculum points: C3 Oral Surgery - 4, 7, 12, 13, 42, 52)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

Luton and Dunstable Hospital is the 'hub' of the rotation where all emergencies and in-patient treatments take place. The DCT also need to attend Bedford Hospital and Milton Keynes General Hospital in a weekly rotation. On-call duties are only at Luton and Dunstable site.

7. Travelling Commitment

Distance between Luton and Dunstable Hospital Bedford Hospital is 22 miles, and 18 miles to Milton Keynes General Hospital. Public transport is available but it is preferable by car. All hospital has staff car parking which is chargeable.

8. Additional Information about the Post

The post-holder will be exposed to a full range of oral and maxillofacial pathologies, oral medicine, both simple and complex dento-alveolar surgery, patients with complex medical conditions, paediatric and adult facial trauma, skin malignancies, head and neck cancer diagnosis and management, TMJ surgery and sialoendoscopy. IV sedation for oral surgery is also undertaken regularly.

Protected time for teaching takes place every Friday afternoon and attendance is compulsory. All trauma patients will be discussed. Various topics related to OMFS are delivered regularly by senior staff.

Each DCT is allocated an educational supervisor and an audit will be required to be completed. There are four regional teaching day at Cambridge and required to attend at least three. There is also an annual junior papers day and DCTs are encouraged to present on cases of their choice/ audit, or in poster format.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

On average, DCT attends 3 consultant clinics and three theatre sessions, either under LA or GA per week.

The standard working hours are:

1:12 full-shift, starting at 8.00 am ward round at Luton and Dunstable Hospital only. Night shift will involve Friday, Saturday and Sunday, followed by off duty for two days. Night shift on Monday, Tuesday, Wednesday and Thursday will be followed by off duty on Friday, Saturday and Sunday. DCT on call during day time will have not other fixed clinical commitments. Working in Bedford Hospital and Milton Keynes General Hospital is from 8.30 am to 5.00 pm.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

On-call is only at Luton and Dunstable Hospital, and emergencies from the spoke hospitals are referred to Luton. Resident on-call in full shift system as described above. First on-call, with middle grade off-site second on-call and consultant off-site third on-call

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Trust induction, including OMFS department induction, takes place one day before the start of the post

Teaching programme

4 whole day regional teaching during the 12 months duration of the post.

Local programme

Each DCT is allocated to an educational supervisor who is one of the OMFS consultants. Protected teaching time every Friday afternoons. Clinical governance half day every two months

Other opportunities

Each DCT is required to complete at least one audit project

Local facilities

Office space is shared between DCTs with full computer and Internet access. Full library service is provided in the post-graduate centre (COMET). There is a grand round every Tuesday lunch time and all staff are encouraged to attend

Other facilities

There is a childcare facility adjacent to the hospital. Comprehensive library facilities are available. Food and drink are available from the hospital restaurant with out-of- hours vending machine. An on-site social club is also

available for staff to use.

13. Employer

The details of the employing trust/organisation are:

Luton and Dunstable University Hospital,
Lewsey Road, Luton, Bedfordshire, LU4 0DZ

6. Rotational Post information

Broomfield hospital is where all the in-patient work carried out and Southend and Basildon have their own ambulatory care.

Southend-Basildon based DCTs will not participate in any on-calls.

Southend and Basildon predominantly carries out ambulatory Oral Surgery and does not perform trauma, or orthognathic surgery. However, all the deformity clinics are based at Southend and Southend-Basildon DCT`s will be given an option of assisting trauma and orthognathic cases on Friday AM with Mr Bhatt at Broomfield.

Southend has 4 GA theatre sessions (15-20 patients),9 minor op sessions(4-5 patients) with a separate neonatal tongue tie clinic up to 15 babies a week. There are 3 consultant led Oral and OMFS clinics and 1 Consultant led 2 week wait clinic. Southend will provide consultant led hands on oral surgery training and general clinical supervision by the Consultants and speciality dentists based at Southend and Bassildon.

Southend also runs multidisciplinary Neonatal baby tongue tie clinic with infant feeding assessments.

Southend DCT`s will participate in head and Neck MDT clinic on Monday PM and a dedicated pre radiotherapy dental assessment clinic on Tuesday PM.

Southend- undertakes most of the Ortho-Oral surgery as we are closely working with 4 orthodontic colleagues and also many primary care orthodontic providers in and around Southend. Southend has a craniofacial Cone Beam CT for surgical and orthodontic planning.

Specialist H&N clinic at Colchester and orthodontic clinics can be included with arrangement

7. Travelling Commitment

Distance between Southend and Basildon is 13 miles
Southend to Broomfield is 23 miles
Basildon to Broomfield hospital is 24 miles

There are no direct trains in between the hospitals, there are no bus shuttle services in between the hospitals and therefore a driving licence and own transport are desirable.

8. Additional Information about the Post

The post holder will gain experience on all aspects of OMFS including

1. Dentoalveolar surgery- under LA/ GA - sedation is being established
2. Oral medicine
3. TMJ disorders

4. Adult and paediatric maxillofacial emergencies
5. Exposure to specialist clinics and theatre (orthognathic, orthodontic and H&N cancer
6. Opportunities by arrangement to attend facial skin cancer list

Protected time is provided to enable the post holder to undertake clinical governance projects. Encouragement is given to presenting projects and assisting in publications. There is weekly departmental teaching program. Postholder is encouraged to be actively involved in it. There is monthly clinical governance meeting where the postholder is expected to present various audits, M&M and case discussions.

Specialist oral surgical experience can be offered by arrangement based on experience

DCTs interested in orthodontics can attend orthodontic clinics by arrangement.

9. Temporary Registrants

This post is suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:
See above - section 6

The standard working hours are:
See above - section 6

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

DCTs are expected to travel between hospitals and driving licence and car is essential

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme.

There is weekly 1 session departmental teaching programme.

Study leave is granted in accordance with Dental Silver Guide 2018

DCTs are encouraged to attend courses and conferences

Local programme

Weekly departmental teaching program will happen in any of the hospitals and DCTs are expected to travel. All DCTs will be allocated an Educational

Supervisor upon appointment.

Other opportunities

There is a monthly clinical Governance meeting. DCTs are expected to present audit, M&M, journal clubs and interesting cases.
Encouragement to present projects and assist in publications

Local facilities

Good postgraduate centre with a library available.

Other facilities

Child care facilities available on site. There is a doctors mess for resting and when on call. For a small fee food and beverages are available

13. Employer

The details of the employing trust/organisation are:
Mid and South Essex NHS Trust

The details are:

On call is a 24 hour period weekdays, or Saturday 08.00 - Monday 08.00, non resident first on call with 2nd on call available at all times and consultant cover (3rd on call.) This is only in Ipswich. We cover Ipswich, Colchester and West Suffolk.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Applicants are encouraged to attend Regional Induction. We encourage applicants to shadow - the more the better! The educational Supervisor offers

extra support the first week and new trainees work in pairs. The first two days are primarily induction for Ipswich hospital and department.

Teaching programme

DCTs are encouraged to attend regional induction, courses, etc and granted study leave is offered

Local programme

An Educational Supervisor is allocated at the start of the post. There are weekly half day teaching sessions (Monday) with internal and external speakers and teaching is seen as part of every activity. The trainees contribute to these sessions. We have 6-weekly clinical governance meetings, with audit and morbidity discussions. There are often outside speakers.

Other opportunities

Trainees are encouraged to complete two Quality Improvement projects a year, at least, and assisted in publications, presentations and exam preparation.

Local facilities

The library in Ipswich is first class with helpful staff for research. There is a simulation suite (eg cannulation, CPR etc) and a clinical skills room where we teach hands on Oral surgery.

Other facilities

Child care facilities are available on site. Trainees have access to computers. There is a restaurant, several coffee shops and a cafe on site with an out of hours vending machine. There is an on call room in the doctors mess with snacks, TV and other activities available.

13. Employer

6. Rotational Post information

This post is not rotational with all daytime and on-call activity based at Princess Alexandra Hospital in Harlow.

DCTs are expected to attend weekly Friday morning teaching at the Royal London Hospital when not on-call.

7. Travelling Commitment

The Royal London Hospital is 50 minutes by train from Harlow train station.

DCTs are required to attend on Friday mornings for teaching, but are not required to be in Harlow that day if not on-call.

8. Additional Information about the Post

Princess Alexandra Hospital is a friendly, medium sized District General Hospital. The postholder will be an integral part of the OMFS team and will gain experience of

- Dentoalveolar surgery
- Adult and paediatric trauma
- Skin cancer
- Salivary gland pathology
- Head and neck cancer diagnosis and follow-up
- TMJ surgery

Treatment of patients under LA, GA and IV sedation

There is an opportunity to gain experience of orthodontics and orthognathic surgery, in agreement with the Royal London Hospital.

Protected time is given to attend the regional teaching and weekly Friday morning teaching. The department also holds monthly audit and clinical governance meetings. Encouragement is given to presenting projects and publications.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:
Approximately per week:2-3 outpatient clinics1-2 minor oral surgery sessions2 main theatre/day surgery sessions1 teaching session

The standard working hours are:

The normal working hours are 8am to 5.30pm. The on-call is 1:4 weekdays only, from 8am to 8pm. This is resident for on-call duties.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	No	No	No

The details are:

On-call is prospective and 8am to 8pm 1 in 4. The on-call DCT is expected to be on site and is always supported by a second on-call middle grade who is non resident (after 5pm) and by a middle grade and Consultant on site from 8am to 5pm.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Prospective applicants are welcome to come and visit informally. New starters are encouraged to shadow before commencing in the post.

Teaching programme

The East of England Regional teaching programme includes a two day DCT induction, four designated study days throughout the year covering relevant topics and a Junior Papers Day designed for DCTs to have the opportunity to give regional oral and poster presentations.

Local programme

All DCTs will be allocated an Educational Supervisor upon appointment. Our DCTs are expected to attend the Friday morning teaching at the Royal London Hospital when not on-call. This gives them access to a range of teaching, both lectures and practical, covering the full breadth of Oral and Maxillofacial Surgery and also the chance to attend teaching run by the Dental Hospital.

Other opportunities

There is a monthly departmental audit and clinical governance day. DCTs are encouraged and supported to participate in

Local facilities

The postgraduate centre offers a range of facilities and support, including life support courses, simulation training and a library with excellent librarian support.

Other facilities

Childcare facilities are available on-site for employees, subject to availability. An on-call room is bookable on request. Food and drink are available from the hospital restaurant, Costa, M&S Food and vending machines.

6. Rotational Post information

Broomfield hospital is where all the in-patient work carried out and Southend and Basildon have their own ambulatory care.

Southend-Basildon based DCTs will not participate in any on-calls.

Southend and Basildon predominantly carries out ambulatory Oral Surgery and does not perform trauma, or orthognathic surgery. However, all the deformity clinics are based at Southend and Southend-Basildon DCT`s will be given an option of assisting trauma and orthognathic cases on Friday AM with Mr Bhatt at Broomfield.

Southend has 4 GA theatre sessions (15-20 patients),9 minor op sessions(4-5 patients) with a separate neonatal tongue tie clinic up to 15 babies a week. There are 3 consultant led Oral and OMFS clinics and 1 Consultant led 2 week wait clinic. Southend will provide consultant led hands on oral surgery training and general clinical supervision by the Consultants and speciality dentists based at Southend and Bassildon.

Southend also runs multidisciplinary Neonatal baby tongue tie clinic with infant feeding assessments.

Southend DCT`s will participate in head and Neck MDT clinic on Monday PM and a dedicated pre radiotherapy dental assessment clinic on Tuesday PM.

Southend- undertakes most of the Ortho-Oral surgery as we are closely working with 4 orthodontic colleagues and also many primary care orthodontic providers in and around Southend. Southend has a craniofacial Cone Beam CT for surgical and orthodontic planning.

Specialist H&N clinic at Colchester and orthodontic clinics can be included with arrangement

7. Travelling Commitment

Distance between Southend and Basildon is 13 miles
Southend to Broomfield is 23 miles
Basildon to Broomfield hospital is 24 miles

There are no direct trains in between the hospitals, there are no bus shuttle services in between the hospitals and therefore a driving licence and own transport are desirable

8. Additional Information about the Post

The post holder will gain experience on all aspects of OMFS including

1. Dentoalveolar surgery- under LA/ GA - sedation is being established
2. Oral medicine
3. TMJ disorders

4. Adult and paediatric maxillofacial emergencies
5. Exposure to specialist clinics and theatre (orthognathic, orthodontic and H&N cancer
6. Opportunities by arrangement to attend facial skin cancer list

Protected time is provided to enable the post holder to undertake clinical governance projects. Encouragement is given to presenting projects and assisting in publications. There is weekly departmental teaching program. Postholder is encouraged to be actively involved in it. There is monthly clinical governance meeting where the postholder is expected to present various audits, M&M and case discussions.

Specialist oral surgical experience can be offered by arrangement based on experience

DCTs interested in orthodontics can attend orthodontic clinics by arrangement.

9. Temporary Registrants

This post is suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:
See above - section 6

The standard working hours are:
See above - section 6

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

DCTs are expected to travel between hospitals and driving licence and car is essential

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme.

There is weekly 1 session departmental teaching programme.

Study leave is granted in accordance with Dental Silver Guide 2018

DCTs are encouraged to attend courses and conferences

Local programme

Weekly departmental teaching program will happen in any of the hospitals and DCTs are expected to travel. All DCTs will be allocated an Educational

Supervisor upon appointment.

Other opportunities

There is a monthly clinical Governance meeting. DCTs are expected to present audit, M&M, journal clubs and interesting cases.
Encouragement to present projects and assist in publications

Local facilities

Good postgraduate centre with a library available.

Other facilities

Child care facilities available on site. There is a doctors mess for resting and when on call. For a small fee food and beverages are available

13. Employer

The details of the employing trust/organisation are:
Mid and South Essex NHS Trust

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Ipswich Hospital is the main base for all on call and most daytime activities. We are starting an outreach clinic with Colchester on a rotational basis doing theatre, minor oral surgery and some clinics.

7. Travelling Commitment

Colchester Hospital is around 45 minute journey by car.

8. Additional Information about the Post

Post holder will gain understanding and hands on experience in dento alveolar surgery, adult and paed's trauma, orthognathic, skin lesions, salivary gland surgery, and TMJ procedures. We have MDT clinics and cancer diagnosis and post treatment care clinics. There is Multi Disciplinary Team care for Malignancy patients on both sites. There are ward rounds every morning and emergency list patients are treated after the ward round. There is teaching on

Monday afternoons and strong portfolio support with Educational Supervisor. Trainees get opportunities to teach local practitioners as well as in other hospital departments and are supported in Quality Improvement projects. They are supported in poster and presentation projects and enabled to attend regional study days. They also work in community dental service doing restorative and extractions under GA with supervision. Trainees attend and assist at prosthetic clinics doing implant and obturator work for Head and Neck patients. There are joint Maxillo Facial-orthodontic clinics which trainees attend and take part in seeing cleft patients and orthognathic patients. As a DCT2 there will be Minor Oral Surgery session with support where needed but encouragement to fly solo. There will be the expectation of support and teaching to DCT1s using experience, learning and leadership skills in that work. GA and sedation work is also to be expected with support but more relaxed supervision.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post involves working in Primary Dental Care

This post **does not** involve working in Primary Dental Care

This post **does not** require that you are eligible to be included in the NHS Dental Performers List

The details of the Primary Care element of this post are:

Middle grade supervision in theatres and wards treating special needs patients.

11. Pattern of Working

The approximate number of treatment sessions per working week is:

A 1:6 rota of on call days, nights and weekends. Daytime 6 weekly rota includes consultant clinics, minor oral surgery, theatres (more than one a week), a teaching session.

The standard working hours are:

1:6 rotations and non - resident. Normal working hours is 8 - 5.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

On call is a 24 hour period weekdays, or Saturday 08.00 - Monday 08.00, non resident first on call with 2nd on call available at all times and consultant cover (3rd on call.) This is only in Ipswich. We cover Ipswich, Colchester and West Suffolk.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Applicants are encouraged to attend Regional Induction. We encourage applicants to shadow - the more the better! The educational Supervisor offers extra support the first week and new trainees work in pairs. The first two days are primarily induction for Ipswich hospital and department.

Teaching programme

DCTs are encouraged to attend regional induction, courses, etc and granted study leave is offered

Local programme

An Educational Supervisor is allocated at the start of the post. There are weekly half day teaching sessions (Monday) with internal and external speakers and teaching is seen as part of every activity. The trainees contribute to these sessions. We have 6-weekly clinical governance meetings, with audit and morbidity discussions. There are often outside speakers.

Other opportunities

Trainees are encouraged to complete two Quality Improvement projects a year, at least, and assisted in publications, presentations and exam preparation.

Local facilities

The library in Ipswich is first class with helpful staff for research. There is a simulation suite (eg cannulation, CPR etc) and a clinical skills room where we teach hands on Oral surgery.

Other facilities

Child care facilities are available on site. Trainees have access to computers. There is a restaurant, several coffee shops and a cafe on site with an out of hours vending machine. There is an on call room in the doctors mess with snacks, TV and other activities available.

13. Employer
