

Midlands Simulation and Technology Enhanced Learning Showcase 2026

Friday 11th September 2026

Education Centre, George Eliot Hospital, Nuneaton, CV10 7DJ.

Attention all simulation, immersive learning and digital education faculty (or those simply interested in this!), we are very pleased to open registration for this year's **Midlands Simulation and TEL Showcase**.

The event will give members of the community:

- Opportunities to **network** with colleagues from across the region
- **Updates** from the NHSE national TEL and Midlands simulation networks
- Opportunities to **present your own work** at a regional level
- CPD **workshops** focused on research and evaluation, and integrating digital platforms into healthcare education
- Catering, certificates and **fun** provided

All for a registration fee of just **£15!**

To register, click [HERE](#) or scan the QR code

Abstract submission

Attendees are encouraged to submit abstracts for consideration for oral presentation and workshops at the meeting. Abstract should be submitted on topics relating to simulation, immersive learning and virtual and hybrid teaching. Oral presentation abstracts will be selected based on:

- Novelty and originality of the project
- Clarity of the abstract
- Impact, significance or relevance to educational practice or the community
- Relevance to multiprofessional audiences
- Academic quality

All abstracts will be scored and provided with feedback – so even if you are not selected you will get something out of submitting work! Further details are found on the submission form. Please note successful abstracts will require in person presentation and those submitting work are encouraged to register ASAP.

This year we will be welcoming network members to submit abstract for workshops to run. These should offer some practical teaching or exploration of idea (not simply another mean to present own work). Workshops should be designed to accommodate 12-15 people and be run in a single classroom setting. Each workshop will be allocated 90mins.
