# Dental Core Training

## Post: HEE NE - Cumberland Infirmary Carlisle - DCT 1 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

### 1. Region

This post is situated in **Health Education England - North East** Region.

### 2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

### 3. Location

#### Location 1

#### Cumberland Infirmary

#### Department of Oral and Maxillofacial Surgery

---

Newtown Road  
CARLISLE  
CA2 7HY

### 4. Specialities and/or clinical focus within post

The main specialities of this post are:

#### Oral and Maxillofacial Surgery

### 5. Key clinical deliverables that can be achieved within this post

#### Clinical deliverable 1:

Gain experience of minor oral surgery under local anaesthesia +/- iv sedation and general anaesthesia

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 48, 47, 46, 43, 40, 36, 28, 27, 7)

---

#### Clinical deliverable 2:

Manage medically compromised patients appropriately

(Mapped to DCT Curriculum points: C3 Oral Surgery - 6, 18, 21, 26)

---

#### Clinical deliverable 3:

Gain experience in the management of inpatients undergoing acute and

---

elective surgery

(Mapped to DCT Curriculum points: C3 Oral Surgery - 30, 45, 50, 51, 7)

---

**Clinical deliverable 4:**

Carry out systematic extra and intra-oral examinations and make differential diagnoses

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 4, 9, 25, 26, 53, 12)

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

N/A

## 7. Travelling Commitment

None required

## 8. Additional Information about the Post

This post forms part of Cumbria's Trainee Enhanced Recruitment Scheme (TERS) and therefore attracts a £7k financial incentive.

This post will provide trainees with experience of oral surgery within a busy maxillofacial surgery department, with the aim of personal and professional career progression. The oral and maxillofacial team at the Cumberland Infirmary is small and friendly and trainees will receive close guidance from the consultants and other senior staff. The geographical nature of Cumbria means trainees will be exposed to a wider range of different patients and maxillofacial conditions than would normally be expected in a small unit. The department has close links with restorative dentistry and orthodontics. Knowledge and skills will be gained in undertaking minor oral and maxillofacial surgery under LA +/- IV sedation and GA. Experience in the management of inpatients undergoing acute and elective surgery will also be gained and post-holders will have opportunities to learn techniques for the management of maxillofacial trauma. Opportunities will be provided for trainees to attend outpatient clinics and observe at multidisciplinary clinics in oncology, orthognathic surgery and dermatology. It may occasionally be necessary to visit West Cumberland Hospital in Whitehaven for surgical lists.

## 9. Temporary Registrants

This post is suitable for temporary registrants.

## 10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

## 11. Pattern of Working

**The approximate number of treatment sessions per working week is:**

Trainees will have approximately 2 theatre sessions, 3 MOS lists, 2 new patient clinics, 1 multidisciplinary clinic and 1 study session per week.

**The standard working hours are:**

Trainees are on a partial shift until 8pm weekdays and until 6pm at weekends on a 1:4 rota.

There is **NO** on-call commitment.

## 12. Educational & Induction programme including Trust and library facilities

**The Educational and Induction Programme includes:**

### Induction

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

### Teaching programme

Trainees are expected to attend the regional DCT basic skills induction course on commencement in post. There is also a regional study day programme which runs throughout the year. This consists of 6 study days:

1. Introduction to maxillofacial trauma
2. Oral medicine and pathology
3. Orthognathic surgery
4. Mid-facial and orbito-zygomatic trauma
5. NOTSS
6. Oral cancer and salivary glands

Trainees are expected to attend all study days where possible.

Study leave is available for attendance at courses and for examinations.

Trainees are actively encouraged to attend courses.

### Local programme

All trainees will be allocated an educational supervisor for the duration of the post. Training is provided during outpatient clinics, operating sessions and ward rounds. Trainees are encouraged to participate in journal clubs, lunchtime meetings and weekly clinical meetings. This post offers excellent facilities to gain the experience required for final MFDS/MJDF.

### Other opportunities

Trainees are expected to undertake an audit project, as well as attending and participating in regional audit meetings. Teaching, research and publication of papers is strongly encouraged.

### Local facilities

There is a well-stocked multidisciplinary library in the Education Centre, offering on-line information in addition to book and journal loan facilities. Out of hours facilities are available.

## Other facilities

### 13. Employer

**The details of the employing trust/organisation are:**

North Cumbria Integrated Care Foundation Trust  
The Cumberland Infirmary, Newtown Road, CARLISLE, CA2 7HY

## Post: HEE NE Newcastle Dental Hospital - DCT1 Rotational post Paediatric Dentistry / Special Care Dentistry

Please note, the information contained in this post description is indicative and subject to change.

### 1. Region

This post is situated in **Health Education England - North East** Region.

### 2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

### 3. Location

#### Location 1

**Newcastle Dental Hospital / Newcastle Community Dental Service  
Special Care Dentistry & Paediatric Dentistry**

---

Newcastle Dental Hospital, Richardson Road, Newcastle upon Tyne, NE2 4AZ

### 4. Specialities and/or clinical focus within post

The main specialties of this post are:

**Paediatric Dentistry**

**Special Care Dentistry**

### 5. Key clinical deliverables that can be achieved within this post

#### Clinical deliverable 1:

Attendance at weekly SCD Consultant Diagnostic Clinics / New patient assessment clinics

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 1, 2, 6, 7, 8, 9, 20)

---

#### Clinical deliverable 2:

Weekly Consultant led diagnostic clinics seeing paediatric patients referred with a range of conditions

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 16)

---

**Clinical deliverable 3:**

Have a minimum of 3 treatment clinics in the Community Dental Service managing patients with Medical, social, psychological, or mental health vulnerabilities

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 1, 3, 2, 5, 6, 7, 8, 18, 19, 20)

---

**Clinical deliverable 4:**

Have exposure to providing Comprehensive Dental Care to patients under General Anaesthesia, IV sedation and Relative Analgesia

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 2, 5, 6, 7, 8, 9, 15, 16, 17)

---

**Clinical deliverable 5:**

Participation in running our paediatric dental emergency clinic

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 1, 7, 13, 14, 20, 21, 23)

---

Personal treatment sessions providing dental care to child patients. Treatment will include restoration of teeth under local anaesthetic and sometimes inhalation sedation.

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 3, 4, 1, 6, 8, 12, 13, 14, 15, 18, 17, 24)

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

In the 6 months in Special care Dentistry, the role will involve working at Newcastle Dental Hospital / Royal Victoria Infirmary /Freeman Hospital (2.5 days per week), and Newcastle Community Dental Service (2.5 days per week) the sites dependent on needs of the individual and service at the time.

## 7. Travelling Commitment

The Community Dental Service operates from 4 sites with a maximum distance apart of 8 miles. Timetabling will, wherever possible, try to avoid cross-site working on individual days. Whilst a car is beneficial, public transport/ hospital shuttle transport is available.

## 8. Additional Information about the Post

The post will allow the post-holder to gain experience in Special Care and Paediatric dentistry. There will be opportunities to support Undergraduate teaching, give presentations, undertake audit, deliver care under Sedation and General Anaesthesia. The post will provide 1 session of protected

administration time per week and allow the post-holder to undertake wide-ranging clinical and non-clinical work.

## 9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

## 10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

**The details of the Primary Care element of this post are:**

6 months of Newcastle Community Dental Service clinical work at one or more of the 4 Community Clinics throughout Newcastle upon Tyne under clinical support/supervision.

## 11. Pattern of Working

**The approximate number of treatment sessions per working week is:**

6 treatment sessions per week  
2 New patient clinics per week  
1 theatre session per month  
1 teaching session per week  
1 study session per week

**The standard working hours are:**

08.45-17.00 Monday to Friday

There is **NO** on-call commitment.

## 12. Educational & Induction programme including Trust and library facilities

**The Educational and Induction Programme includes:**

### Induction

There will be opportunities for shadowing before the post commences.

Can be arranged as required dependent on individual

### Teaching programme

Access to regional and departmental teaching sessions is facilitated

### Local programme

The post-holder will be allocated an Educational Supervisor and will be expected to attend Clinical Governance meetings and Staff meetings as required

### Other opportunities

It is expected that an Audit project will be undertaken in the period. Research / Service Evaluation may be an option dependent on experience and time commitment.

### Local facilities

Newcastle University Library facilities are available, however there is no

dedicated office space available.

**Other facilities**

**13. Employer**

**The details of the employing trust/organisation are:**

Newcastle upon Tyne Hospitals NHS Foundation Trust, The Newcastle upon Tyne Hospitals NHS Foundation Trust, Freeman Hospital, Freeman Road, High Heaton, Newcastle upon Tyne, NE7 7DN

## Post: HEE NE - Royal Victoria Infirmary Newcastle - DCT1 OMFS

Please note, the information contained in this post description is indicative and subject to change.

### 1. Region

This post is situated in **Health Education England - North East** Region.

### 2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

### 3. Location

#### Location 1

**Royal Victoria Infirmary and Newcastle Dental Hospital**

**Oral and Maxillo-facial Surgery**

Department of Oral and Maxillo-facial Surgery, Queen Victoria Road, Newcastle upon Tyne

### 4. Specialities and/or clinical focus within post

The main specialties of this post are:

**Oral and Maxillofacial Surgery**

### 5. Key clinical deliverables that can be achieved within this post

#### Clinical deliverable 1:

One-to-one supervised regular minor oral surgery list under LA

(Mapped to DCT Curriculum points: C3 Oral Surgery - 27, 3, 28, 33, 43, 47)

#### Clinical deliverable 2:

Appropriate management of medically compromised patients (in outpatient, day case and inpatient settings).

(Mapped to DCT Curriculum points: C3 Oral Surgery - 26, 21, 9, 6, 52)

#### Clinical deliverable 3:

Recognition and management of oral lesions.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 22, 14, 2, 1, 4)

---

**Clinical deliverable 4:**

Management of emergency maxillofacial admissions (dental trauma, maxillofacial trauma and oro-facial infections).

(Mapped to DCT Curriculum points: C3 Oral Surgery - 53, 52, 51, 50, 10, 30, 49)

---

**Clinical deliverable 5:**

Regular experience in the management of facial lacerations.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 40)

---

**Clinical deliverable 6:**

Diagnosis and treatment options for patients requiring surgical and orthodontic input - dental anomalies, impacted teeth and orthognathic surgery.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 16, 37)

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

The main base for this post is the oral and maxillofacial department which is located at the Royal Victoria Infirmary in Newcastle upon Tyne and Newcastle Dental Hospital. One week in eight is spent at Newcastle Dental Hospital. Experience is also gained at the Freeman Hospital where the head and neck cancer surgery is undertaken. This is usually again a one in eight basis.

## 7. Travelling Commitment

The only travelling commitment for this post is when at the Freeman Hospital for which the Trust provide an efficient and frequently running shuttle bus.

## 8. Additional Information about the Post

This post will give experience in all major aspects of OMFS including:

Dento-alveolar surgery

Adult and paediatric trauma

Orthognathic surgery for facial deformity

Skin cancer

Surgery for head and neck cancer

Treatment of patients under local anaesthesia, IV sedation and general anaesthesia.

Protected time is provided to enable clinical governance and related activity. Encouragement is given to present projects and where appropriate to develop these for publication in peer reviewed journals.

There is a monthly Morbidity and Mortality meeting which includes DCT teaching.

DCT2 clinicians are encouraged to develop their leadership skills where appropriate.

There is a mandatory regional teaching programme.

The link with Newcastle Dental School/Hospital provides a useful interface with all the other dental specialties, particularly orthodontics.

## 9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

## 10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

## 11. Pattern of Working

**The approximate number of treatment sessions per working week is:**  
The working weeks vary according to the stage of the rotation. A typical week will involve 2 theatre sessions and 1 MOS list with 2 consultant clinics and pre-assessment clinics. Opportunities to undertake treatment under LA / GA and IV sedation will be available. There will be time allocated for study and teaching activities.

**The standard working hours are:**

**There is an on-call commitment, the pattern of which is:**

	Daytime	Evening	Overnight
<b>Weekdays</b>	Yes	Yes	Yes
<b>Weekends</b>	Yes	Yes	Yes

**The details are:**

a 1 in 8 overnight on call rota will be part of this post. Middle grade 2nd on call and consultant 3rd on call support always available.

## 12. Educational & Induction programme including Trust and library facilities

**The Educational and Induction Programme includes:**

### Induction

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

It is difficult to organise shadowing for posts when the applicant is working outside the Trust. Candidates are encouraged to visit the unit, however.

#### **Teaching programme**

There is a mandatory HEE regional teaching programme which includes an introductory Basic Skills Course, and maxillofacial teaching days x 6

#### **Local programme**

There is a monthly Morbidity and Mortality meeting which includes DCT teaching.

#### **Other opportunities**

Protected time is provided to enable clinical governance and related activity. Encouragement is given to present projects and where appropriate to develop these for publication in peer reviewed journals.

#### **Local facilities**

University Medical and Dental library on site.

#### **Other facilities**

### 13. Employer

#### **The details of the employing trust/organisation are:**

Newcastle Hospitals NHS Trust

## Post: HEE NE Cumbria - DCT2 - Restorative Dentistry/ OMFS

Please note, the information contained in this post description is indicative and subject to change.

### 1. Region

This post is situated in **Health Education England - North East** Region.

### 2. Level of training post and duration

This post is at **DCT 2** level and has a duration of **12 Months**.

### 3. Location

#### Location 1

**Cumberland Infirmary**

**Department of Oral and Maxillofacial Surgery**

---

Newtown Road  
CARLISLE  
CA2 7HY

#### Location 2

**Carlisle Dental Centre**

**Department of Restorative Dentistry**

---

Infirmary Street  
CARLISLE  
CA2 7HY

### 4. Specialities and/or clinical focus within post

The main specialities of this post are:

**Oral and Maxillofacial Surgery**

**Restorative Dentistry**

### 5. Key clinical deliverables that can be achieved within this post

**Clinical deliverable 1:**

Develop skills in carrying out minor oral surgery (dental and soft tissue) under

local anaesthesia +/- iv sedation and general anaesthesia

(Mapped to DCT Curriculum points: C3 Oral Surgery - 17, 20, 3, 23, 28, 31, 32, 33, 34, 36, 37, 39, 43, 40, 46, 47, 48)

---

**Clinical deliverable 2:**

Manage medically compromised patients appropriately

(Mapped to DCT Curriculum points: C3 Oral Surgery - 6, 52, 21, 13)

---

**Clinical deliverable 3:**

Manage inpatients undergoing acute and elective surgery appropriately

(Mapped to DCT Curriculum points: C3 Oral Surgery - 30, 45, 50, 51, 7)

---

**Clinical deliverable 4:**

Carry out systematic extra and intra-oral examinations and make differential diagnoses

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 4, 9, 12, 25, 26, 53)

---

**Clinical deliverable 5:**

Gain experience of working in a Specialist Restorative Dentistry environment

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 1, 4, 6, 14, 15, 25)

---

**Clinical deliverable 6:**

Provide a range of direct and indirect restorations, fixed and removable prosthodontics, endodontic and periodontal procedures for patients referred from the primary dental care setting

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 7, 8, 9, 18, 19, 21, 22, 23, 24)

---

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

3.5 days per week are based within the OMFS Department at the Cumberland Infirmary and 1.5 days per week are based within the Restorative Dentistry Department at Carlisle Dental Centre

## 7. Travelling Commitment

Both departments are based on the same hospital site, therefore there is no travelling commitment.

## 8. Additional Information about the Post

This post forms part of Cumbria's Trainee Enhanced Recruitment Scheme (TERS) and therefore attracts a £7k financial incentive.

The OMFS element of this post will provide trainees with experience of oral

surgery within a busy maxillofacial surgery department, with the aim of personal and professional career progression. The oral and maxillofacial team at the Cumberland Infirmary is small and friendly and trainees will receive close guidance from the consultants and other senior staff. The geographical nature of Cumbria means trainees will be exposed to a wider range of different patients and maxillofacial conditions than would normally be expected in a small unit. The department has close links with restorative dentistry and orthodontics. Knowledge and skills will be gained in undertaking minor oral and maxillofacial surgery under LA +/- IV sedation and GA. Experience in the management of inpatients undergoing acute and elective surgery will also be gained and post-holders will have opportunities to learn techniques for the management of maxillofacial trauma. Opportunities will be provided for trainees to attend outpatient clinics and observe at multidisciplinary clinics in oncology, orthognathic surgery and dermatology. It may occasionally be necessary to visit West Cumberland Hospital in Whitehaven for surgical lists.

The restorative dentistry element of the post will provide trainees with opportunities to consolidate diagnostic and treatment skills within the broad remit of restorative dentistry and to develop personal attributes in preparation for further career development. Carlisle has one consultant in restorative dentistry and trainees will be given a unique opportunity to work closely alongside them on a one-to-one basis, providing an excellent learning experience in a specialist restorative dentistry environment.

## 9. Temporary Registrants

This post is suitable for temporary registrants.

## 10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

## 11. Pattern of Working

**The approximate number of treatment sessions per working week is:**  
Trainees will have approximately 2 theatre sessions, 1 MOS list, 2 new patient clinics, 1 multidisciplinary clinic, 2 restorative dentistry personal treatment sessions and 1 study session per week

**The standard working hours are:**  
Trainees are on a partial shift until 8pm weekdays and until 6pm at weekends on a 1:4 rota.

There is **NO** on-call commitment.

## 12. Educational & Induction programme including Trust and library facilities

**The Educational and Induction Programme includes:**

**Induction**

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

### **Teaching programme**

Trainees are expected to attend the regional DCT basic skills induction course on commencement in post. There is also a regional study day programme which runs throughout the year. This consists of 6 study days:

1. Introduction to maxillofacial trauma
2. Oral medicine and pathology
3. Orthognathic surgery
4. Mid-facial and orbito-zygomatic trauma
5. NOTSS
6. Oral cancer and salivary glands

Trainees are expected to attend all study days where possible.

Study leave is available for attendance at courses and for examinations.

Trainees are actively encouraged to attend courses.

### **Local programme**

All trainees will be allocated an educational supervisor for the duration of the post. Training is provided during outpatient clinics, operating sessions and ward rounds. Trainees are encouraged to participate in journal clubs, lunchtime meetings and weekly clinical meetings. This post offers excellent facilities to gain the experience required for final MFDS/MJDF.

### **Other opportunities**

Trainees are expected to undertake an audit project, as well as attending and participating in regional audit meetings. Teaching, research and publication of papers is strongly encouraged.

### **Local facilities**

There is a well-stocked multidisciplinary library in the Education Centre, offering on-line information in addition to book and journal loan facilities. Out of hours facilities are available.

### **Other facilities**

## **13. Employer**

### **The details of the employing trust/organisation are:**

North Cumbria Integrated Care Foundation Trust

The Cumberland Infirmary, Newtown Road, CARLISLE, CA2 7HY

## **14. Contact email for applicant queries relating to the post**

### **Please use this email address for further information about this post:**

vikki.maxfield@hee.nhs.uk

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 2, 5, 15)

---

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

### 6. Rotational Post information

6 months based in the OMFS department at the Cumberland Infirmary in Carlisle and 6 months based within the Salaried Primary Care Dental Service in Cumbria (either Carlisle Dental Centre or Cleator Moor Health Centre - location to be confirmed).

## 7. Travelling Commitment

The OMFS department at the Cumberland Infirmary and Carlisle Dental Centre are based on the same site. Cleator Moor Health Centre is approximately 1 hour's drive from Carlisle and therefore the ability to travel between these sites is essential.

## 8. Additional Information about the Post

This post forms part of Cumbria's Trainee Enhanced Recruitment Scheme (TERS) and therefore attracts a £7k financial incentive.

The OMFS element of this post will provide trainees with experience of oral surgery within a busy maxillofacial surgery department, with the aim of personal and professional career progression. The oral and maxillofacial team at the Cumberland Infirmary is small and friendly and trainees will receive close guidance from the consultants and other senior staff. The geographical nature of Cumbria means trainees will be exposed to a wider range of different patients and maxillofacial conditions than would normally be expected in a small unit. The department has close links with restorative dentistry and orthodontics. Knowledge and skills will be gained in undertaking minor oral and maxillofacial surgery under LA +/- IV sedation and GA. Experience in the management of inpatients undergoing acute and elective surgery will also be gained and post-holders will have opportunities to learn techniques for the management of maxillofacial trauma. Opportunities will be provided for trainees to attend outpatient clinics and observe at multidisciplinary clinics in oncology, orthognathic surgery and dermatology. It may occasionally be necessary to visit West Cumberland Hospital in Whitehaven for surgical lists.

The CDS element of the post will provide trainees with knowledge and experience of working in the Salaried Primary Care Dental Service. The post is designed to give trainees broad exposure to a range of specialised dental services. The successful applicant will have the opportunity to obtain training and clinical experience in paediatric dentistry, special care dentistry, sedation, oral surgery and domiciliary care.

The post holder will provide such care to patients as is normally carried out in the units in which they are placed. The Salaried Primary Care Dental Service includes the treatment of patients with special needs and/or complex medical histories and/or in-patients.

## 9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

## 10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

**The details of the Primary Care element of this post are:**

The post-holder will work full-time for 6 months in the Salaried Primary Care Dental Services, either at Carlisle Dental Centre or Cleator Moor Health Centre. Further details of the training this element of the post provides are contained in section 8 above.

## 11. Pattern of Working

**The approximate number of treatment sessions per working week is:**

During the 6 months spent in OMFS, trainees will have approximately 2 theatre sessions, 3 MOS lists, 2 new patient clinics, 1 multidisciplinary clinic and 1 study session per week. During the 6 months spent in the Salaried Primary Care Dental Services, trainees will treat patients primarily in a clinical setting, but also on wards in hospitals and occasionally in a domiciliary setting. Opportunities will be provided to undertake a wide range of treatment types, including under conscious sedation and general anaesthesia. Trainees will have 1 study session per week.

**The standard working hours are:**

During the 6 months spent in OMFS, trainees will be on a partial shift until 8pm weekdays and until 6pm at weekends on a 1:4 rota. During the 6 months spent in the Salaried Primary Care Dental Service, trainees will work full time, 37.5 hours per week.

There is **NO** on-call commitment.

## 12. Educational & Induction programme including Trust and library facilities

**The Educational and Induction Programme includes:**

**Induction**

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

**Teaching programme**

Trainees are expected to attend the regional DCT basic skills induction course on commencement in post. There is also a regional OMFS study day programme which runs throughout the year. This consists of 6 study days:

1. Introduction to maxillofacial trauma
2. Oral medicine and pathology
3. Orthognathic surgery
4. Mid-facial and orbito-zygomatic trauma
5. NOTSS
6. Oral cancer and salivary glands

Trainees are expected to attend all study days where possible. Subject to agreement with the ES, it may also be possible for trainees to attend some or all of the study day programme for DCTs in stand-alone CDS posts. Study leave is available for attendance at courses and for examinations. Trainees are actively encouraged to attend courses.

### **Local programme**

All trainees will be allocated an educational supervisor for the duration of the post. Training is provided during outpatient clinics, operating sessions and ward rounds. Trainees are encouraged to participate in journal clubs, lunchtime meetings and weekly clinical meetings. This post offers excellent facilities to gain the experience required for final MFDS/MJDF.

### **Other opportunities**

Trainees are expected to undertake an audit project, as well as attending and participating in regional audit meetings. Teaching, research and publication of papers is strongly encouraged.

### **Local facilities**

There is a well-stocked multidisciplinary library in the Education Centre, offering on-line information in addition to book and journal loan facilities. Out of hours facilities are available.

### **Other facilities**

## 13. Employer

### **The details of the employing trust/organisation are:**

North Cumbria Integrated Care Foundation Trust  
The Cumberland Infirmary, Newtown Road, CARLISLE, CA2 7HY

## 14. Contact email for applicant queries relating to the post

## Post: HEE NE Cumberland Infirmary - DCT2 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

### 1. Region

This post is situated in **Health Education England - North East** Region.

### 2. Level of training post and duration

This post is at **DCT 2** level and has a duration of **12 Months**.

### 3. Location

#### Location 1

#### Cumberland Infirmary

#### Department of Oral and Maxillofacial Surgery

---

Newtown Road  
CARLISLE  
CA2 7HY

---

### 4. Specialities and/or clinical focus within post

The main specialities of this post are:

#### **Oral and Maxillofacial Surgery**

### 5. Key clinical deliverables that can be achieved within this post

#### **Clinical deliverable 1:**

Develop skills in carrying out minor oral surgery (dental and soft tissue) under local anaesthesia +/- iv sedation and general anaesthesia

(Mapped to DCT Curriculum points: C3 Oral Surgery - 17, 20, 3, 23, 28, 31, 32, 33, 34, 36, 37, 39, 43, 40, 46, 47, 48)

---

#### **Clinical deliverable 2:**

Manage medically compromised patients appropriately

(Mapped to DCT Curriculum points: C3 Oral Surgery - 6, 52, 21, 13)

---

#### **Clinical deliverable 3:**

Manage inpatients undergoing acute and elective surgery appropriately

(Mapped to DCT Curriculum points: C3 Oral Surgery - 30, 45, 50, 51, 7)

---

**Clinical deliverable 4:**

Carry out systematic extra and intra-oral examinations and make differential diagnoses

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 4, 9, 12, 25, 26, 53)

---

**Clinical deliverable 5:**

Provide appropriate emergency care for patients with oral and dental infections

(Mapped to DCT Curriculum points: C3 Oral Surgery - 8, 34, 42, 45, 49)

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

## 7. Travelling Commitment

None required

## 8. Additional Information about the Post

This post forms part of Cumbria's Trainee Enhanced Recruitment Scheme (TERS) and therefore attracts a £7k financial incentive.

This post will provide trainees with experience of oral surgery within a busy maxillofacial surgery department, with the aim of personal and professional career progression. The oral and maxillofacial team at the Cumberland Infirmary is small and friendly and trainees will receive close guidance from the consultants and other senior staff. The geographical nature of Cumbria means trainees will be exposed to a wider range of different patients and maxillofacial conditions than would normally be expected in a small unit. The department has close links with restorative dentistry and orthodontics. Knowledge and skills will be gained in undertaking minor oral and maxillofacial surgery under LA +/- IV sedation and GA. Experience in the management of inpatients undergoing acute and elective surgery will also be gained and post-holders will have opportunities to learn techniques for the management of maxillofacial trauma. Opportunities will be provided for trainees to attend outpatient clinics and observe at multidisciplinary clinics in oncology, orthognathic surgery and dermatology. It may occasionally be necessary to visit West Cumberland Hospital in Whitehaven for surgical lists.

## 9. Temporary Registrants

This post is suitable for temporary registrants.

## 10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

## 11. Pattern of Working

Personal treatment sessions providing dental care to child patients. Treatment will include restoration of teeth under local anaesthetic and sometimes inhalation sedation.

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 3, 4, 1, 6, 8, 12, 13, 14, 15, 18, 17, 24)

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

In the 6 months in Special care Dentistry, the role will involve working at Newcastle Dental Hospital / Royal Victoria Infirmary /Freeman Hospital (2.5 days per week), and Newcastle Community Dental Service (2.5 days per week) the sites dependent on needs of the individual and service at the time.

## 7. Travelling Commitment

The Community Dental Service operates from 4 sites with a maximum distance apart of 8 miles. Timetabling will, wherever possible, try to avoid cross-site working on individual days. Whilst a car is beneficial, public transport/ hospital shuttle transport is available.

## 8. Additional Information about the Post

The post will allow the post-holder to gain experience in Special Care and Paediatric dentistry. There will be opportunities to support Undergraduate teaching, give presentations, undertake audit, deliver care under Sedation and General Anaesthesia. The post will provide 1 session of protected

administration time per week and allow the post-holder to undertake wide-ranging clinical and non-clinical work.

## 9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

## 10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

**The details of the Primary Care element of this post are:**

6 months of Newcastle Community Dental Service clinical work at one or more of the 4 Community Clinics throughout Newcastle upon Tyne under clinical support/supervision.

## 11. Pattern of Working

**The approximate number of treatment sessions per working week is:**

6 treatment sessions per week  
2 New patient clinics per week  
1 theatre session per month  
1 teaching session per week  
1 study session per week

**The standard working hours are:**

08.45-17.00 Monday to Friday

There is **NO** on-call commitment.

## 12. Educational & Induction programme including Trust and library facilities

**The Educational and Induction Programme includes:**

### Induction

There will be opportunities for shadowing before the post commences.

Can be arranged as required dependent on individual

### Teaching programme

Access to regional and departmental teaching sessions is facilitated

### Local programme

The post-holder will be allocated an Educational Supervisor and will be expected to attend Clinical Governance meetings and Staff meetings as required

### Other opportunities

It is expected that an Audit project will be undertaken in the period. Research / Service Evaluation may be an option dependent on experience and time commitment.

### Local facilities

Newcastle University Library facilities are available, however there is no

dedicated office space available.

**Other facilities**

**13. Employer**

**The details of the employing trust/organisation are:**

Newcastle upon Tyne Hospitals NHS Foundation Trust, The Newcastle upon Tyne Hospitals NHS Foundation Trust, Freeman Hospital, Freeman Road, High Heaton, Newcastle upon Tyne, NE7 7DN

---

**Clinical deliverable 5:**

Regular experience in the management of facial lacerations.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 40)

---

**Clinical deliverable 6:**

Diagnosis and treatment options for patients requiring surgical and orthodontic input - dental anomalies, impacted teeth and orthognathic surgery.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 16, 37)

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

The main base for this post is the oral and maxillofacial department which is located at the Royal Victoria Infirmary in Newcastle upon Tyne and Newcastle Dental Hospital. One week in eight is spent at Newcastle Dental Hospital. Experience is also gained at the Freeman Hospital where the head and neck cancer surgery is undertaken. This is usually again on a one in eight basis.

## 7. Travelling Commitment

The only travelling commitment for this post is when at the Freeman Hospital for which the Trust provide an efficient and frequently running shuttle bus.

## 8. Additional Information about the Post

This post will give experience in all major aspects of OMFS including:

Dento-alveolar surgery

Adult and paediatric trauma

Orthognathic surgery for facial deformity

Skin cancer

Surgery for head and neck cancer

Treatment of patients under local anaesthesia, IV sedation and general anaesthesia.

DCT2 clinicians are encouraged to develop their leadership skills where appropriate.

The link with Newcastle Dental School/Hospital provides a useful interface with

all the other dental specialties, particularly orthodontics.

## 9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

## 10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

## 11. Pattern of Working

### **The approximate number of treatment sessions per working week is:**

The working weeks vary according to the stage of the rotation. A typical week will involve 2 theatre sessions and 1 MOS list with 2 consultant clinics and pre-assessment clinics. Opportunities to undertake treatment under LA / GA and IV sedation will be available. There will be time allocated for study and teaching activities.

### **The standard working hours are:**

**There is an on-call commitment, the pattern of which is:**

	Daytime	Evening	Overnight
<b>Weekdays</b>	<b>Yes</b>	<b>Yes</b>	<b>Yes</b>
<b>Weekends</b>	<b>Yes</b>	<b>Yes</b>	<b>Yes</b>

### **The details are:**

a 1 in 8 overnight on call rota will be part of this post. Middle grade 2nd on call and consultant 3rd on call support always available.

## 12. Educational & Induction programme including Trust and library facilities

### **The Educational and Induction Programme includes:**

#### **Induction**

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

It is difficult to organise shadowing for posts when the applicant is working outside the Trust. Candidates are encouraged to visit the unit, however.

#### **Teaching programme**

There is a mandatory HEE regional teaching programme which includes an introductory Basic Skills Course, and maxillofacial teaching days x 6

#### **Local programme**

There is a monthly Morbidity and Mortality meeting which includes DCT

teaching.

**Other opportunities**

Protected time is provided to enable clinical governance and related activity. Encouragement is given to present projects and where appropriate to develop these for publication in peer reviewed journals.

**Local facilities**

University medical and Dental library on site.

**Other facilities**

### 13. Employer

**The details of the employing trust/organisation are:**

Newcastle upon Tyne Hospitals NHS Trust.

# Dental Core Training

## Post: HEE NE - Public Health England, Newcastle - DCT3 - Dental Public Health

Please note, the information contained in this post description is indicative and subject to change.

### 1. Region

This post is situated in **Health Education England - North East** Region.

### 2. Level of training post and duration

This post is at **DCT 3** level and has a duration of **12 Months**.

### 3. Location

#### Location 1

**Newcastle Civic Centre**

**Public Health England**

---

Sandyford Road Newcastle Upon Tyne  
NE1 8QH

### 4. Specialities and/or clinical focus within post

The main specialities of this post are:

**Dental Public Health**

### 5. Key clinical deliverables that can be achieved within this post

#### Clinical deliverable 1:

Will attend dental commissioning meetings to secure understanding of how NHS dental services are commissioned.

(Mapped to DCT Curriculum points: C10 Dental Public Health and Epidemiology - 6)

---

#### Clinical deliverable 2:

Will be allocated projects to explore population health issues

(Mapped to DCT Curriculum points: C10 Dental Public Health and Epidemiology - 19, 1, 8, 9, 14, 20, 23)

---

#### Clinical deliverable 3:

You can access a copy of the DCT Curriculum at:  
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

## 6. Rotational Post information

The post is approximately 2 days in PHE offices, 1 day at Newcastle University Dental Hospital (1 session per week on dental emergency clinic) and 2 days local Authority offices.

## 7. Travelling Commitment

The appointee being expected to travel primarily within the Tyne and Wear area, most locations are easily accessible by public transport. The post holder may spend time at Local Authorities in Public Health Departments, Adult Social Care and Vulnerable Adult or Child Protection functions. Travel beyond the Tyne and Wear area, will be by negotiation with the post holder. Most travel should be possible via public transport and there is no staff parking available at the Civic Centre offices.

## 8. Additional Information about the Post

This one year dental public health program will provide a broad range of exposure to population oral health and health care services including opportunities to explore the workings of the social care system in relation to oral health care. The post would be of value to dentists considering both specialist training in dental public health and also other specialist training programs particularly special care dentistry and pediatric dentistry, where exposure to the social care systems, child protection and other relevant parts of the broader health and social care system will be of benefit to individuals who wish to pursue these careers. Opportunities will also be available to explore general public health.

The post holder will gain exposure to academic dental public health and would be expected to spend some time at Newcastle University including the Dental School. Trainees may gain exposure to academic dentistry for those who wish

to consider any type of University Career.

The post will be based in Newcastle at Public Health England offices; they will have the opportunity to spend time in departments which have access to epidemiological data and carry out health protection.
