| 6.  | <b>Training unit/location/s</b>  | Morrison Hospital Swansea and Princess of Wales Hospital Bridgend.   |
| 7.  | <b>Full address of training units where training will take place</b>   | 1. Morrison Hospital, Heol Maes Eglwys, Morrison, Swansea SA6 6NL<br>2. Princess of Wales Hospital, Coity Road, Bridgend CF31 1RQ  |
| 8.  | <b>Travelling commitment</b>   | Travel to and from the training units.   |
| 9.  | <b>Educational Supervisors</b>   | Ms Charlotte Eckhardt, Consultant Orthodontist   |
| 10. | <b>Description of the training post</b>  | <p>The Oral and Maxillofacial department at Morrison Hospital is one of the largest and busiest in the United Kingdom serving a population of 1.25 million.</p> <p>The Trainee will undertake a range of Oral and Maxillofacial and Orthodontic procedures. Highlighting the multi-disciplinary approach to treatment and the co-ordinated work of both specialities. Oral and Maxillofacial Surgery is involved also with craniomaxillofacial trauma, head &amp; neck oncology and salivary gland surgery.</p> <p>The Oral and Maxillofacial department is an integrated department based at Morrison Hospital and also serving Princess of Wales Hospital in Bridgend. All emergency and inpatient elective work take place at the Morrison Hospital. All other work is undertaken on either site.</p> <p>Morrison Hospital has been designated by the Welsh Assembly Government as the centre for cleft care in South</p> |

|     |   |   |
|-----|---|---|
|     |   | <p>Wales.</p> <p>The Unit has an international reputation in the reconstruction of patients with congenital and acquired orofacial defects and many challenging multi-disciplinary cases are undertaken.</p> <p>There is a large maxillofacial laboratory on site serving all three specialties. The team includes maxillofacial technicians and prosthetists, orthodontic and restorative technicians and full-time 3D scientist. A full range of services is provided including facial prostheses, implants and planning for orthognathic, reconstructive and trauma service.</p> <p>The Maxillofacial Unit, Cleft Unit and ENT share a dedicated outpatient facility with several clinical rooms, treatment rooms and multidisciplinary meeting rooms in the new outpatient facility at Morriston Hospital. We also have a dedicated Head &amp; Neck ward for all our emergency and elective patients. There is free access to large children's ward for paediatric patients. Daycase patients have access to Theatre Admissions Unit for same day discharge. There is a dedicated adult and paediatric theatre for elective operating throughout the week and access to CEPOD theatre for emergency work.</p> <p>The Oral and Maxillofacial Surgery clinical team currently includes 7 consultants, 3 specialist trainees, 4 specialty doctors and 9 dental and medical foundation and core trainees.</p> |
| 11. | <b>Primary Care training element</b>                            | No primary care commitment  |
| 12. | <b>Pattern of working, including any on-call commitment</b>     | 9-5 daytime working. There is no out of hours on-call commitment.   |
| 13. | <b>Educational programme summary and library facilities</b>     | <p>The DCT will have the opportunity to attend outpatient clinics and treatment sessions. Experience will be gained working closely with medical and surgical colleagues in all clinical areas. The DCT will attend theatre sessions and encouraged to develop their surgical skills appropriate for their level. The DCT will be encouraged to participate in clinical audit and there are opportunities to pursue research.</p> <p>In addition there are structured departmental educational activities: weekly journal club, monthly clinical governance days, and monthly teaching sessions on core topics. Trainees are encouraged and supported to actively participate in these activities.</p> <p>There are excellent library facilities both at Morriston Hospital and Princess of Wales Hospital.</p>   |

| 6.  | <b>Training unit/location/s</b>  | Morrison Hospital Swansea and Princess of Wales Hospital Bridgend.   |
| 7.  | <b>Full address of training units where training will take place</b>   | 1. Morrison Hospital, Heol Maes Eglwys, Morrison, Swansea SA6 6NL<br>2. Princess of Wales Hospital, Coity Road, Bridgend CF31 1RQ  |
| 8.  | <b>Travelling commitment</b>   | Travel to and from the training units.   |
| 9.  | <b>Educational Supervisors</b>   | Mr Sankar Ananth, Consultant Oral & Maxillofacial Surgeon  |
| 10. | <b>Description of the training post</b>  | <p>The Oral and Maxillofacial department at Morrison Hospital is one of the largest and busiest in the United Kingdom serving a population of 1.25 million. A wide range of Oral and Maxillofacial services are carried out including head and neck surgery and reconstruction, cleft lip and palate surgery, orthognathic surgery, maxillofacial trauma, salivary gland surgery, cutaneous malignancy and dentoalveolar surgery. The post will also involve <b>Paediatric Oral and Maxillofacial Surgery</b>.</p> <p>The Oral and Maxillofacial department is an integrated department based at Morrison Hospital and also serving Princess of Wales Hospital in Bridgend. All emergency and inpatient elective work take place at the Morrison Hospital. All other work is undertaken on either site.</p> <p>Morrison Hospital has been designated by the Welsh Assembly Government as the centre for cleft care in South Wales.</p> |

|     |   |   |
|-----|---|---|
|     |   | <p>The Unit has an international reputation in the reconstruction of patients with congenital and acquired orofacial defects and many challenging multi-disciplinary cases are undertaken.</p> <p>There is a large maxillofacial laboratory on site serving all three specialties. The team includes maxillofacial technicians and prosthetists, orthodontic and restorative technicians and full-time 3D scientist. A full range of services is provided including facial prostheses, implants and planning for orthognathic, reconstructive and trauma service.</p> <p>The Maxillofacial Unit, Cleft Unit and ENT share a dedicated outpatient facility with several clinical rooms, treatment rooms and multidisciplinary meeting rooms in the new outpatient facility at Morriston Hospital. We also have a dedicated Head &amp; Neck ward for all our emergency and elective patients. There is free access to large children's ward for paediatric patients. Daycase patients have access to Theatre Admissions Unit for same day discharge. There is a dedicated adult and paediatric theatre for elective operating throughout the week and access to CEPOD theatre for emergency work.</p> <p>The Oral and Maxillofacial Surgery clinical team currently includes 7 consultants, 3 specialist trainees, 4 specialty doctors and 9 dental and medical foundation and core trainees.</p> |
| 11. | <b>Primary Care training element</b>                            | No primary care commitment  |
| 12. | <b>Pattern of working, including any on-call commitment</b>     | 9-5 daytime working. There is no out of hours on-call commitment.   |
| 13. | <b>Educational programme summary and library facilities</b>     | <p>The DCT will have the opportunity to attend outpatient clinics and treatment sessions. Experience will be gained working closely with medical and surgical colleagues in all clinical areas. The DCT will attend theatre sessions and encouraged to develop their surgical skills appropriate for their level. The DCT will be encouraged to participate in clinical audit and there are opportunities to pursue research.</p> <p>In addition there are structured departmental educational activities: weekly journal club, monthly clinical governance days, and monthly teaching sessions on core topics. Trainees are encouraged and supported to actively participate in these activities.</p> <p>There are excellent library facilities both at Morriston Hospital and Princess of Wales Hospital.</p>   |

| 10. | <b>Description of the training post</b>  | The Oral and Maxillofacial department at Morrison Hospital is one of the largest and busiest in the United Kingdom serving a population of 1.25 million. A wide range of Oral and Maxillofacial services are carried out including head and neck surgery and reconstruction, cleft lip and palate surgery, orthognathic surgery, maxillofacial trauma, salivary gland surgery, cutaneous malignancy and dentoalveolar surgery. It is part of the Maxillofacial Unit which includes the specialties of Orthodontics and Restorative Dentistry and has close working relationships with these departments. There is also close working relationship with other allied specialties including ENT and Plastic surgery.<br><br>The Oral and Maxillofacial department is an integrated department based at Morrison Hospital and also serving |

|     |   |   |
|-----|---|---|
|     |   | <p>Princess of Wales Hospital in Bridgend. All emergency and inpatient elective work take place at the Morriston Hospital. All other work is undertaken on either site.</p> <p>Morriston Hospital has been designated by the Welsh Assembly Government as the centre for cleft care in South Wales.</p> <p>The Unit has an international reputation in the reconstruction of patients with congenital and acquired orofacial defects and many challenging multi-disciplinary cases are undertaken.</p> <p>There is a large maxillofacial laboratory on site serving all three specialties. The team includes maxillofacial technicians and prosthetists, orthodontic and restorative technicians and full-time 3D scientist. A full range of services is provided including facial prostheses, implants and planning for orthognathic, reconstructive and trauma service.</p> <p>The Maxillofacial Unit, Cleft Unit and ENT share a dedicated outpatient facility with several clinical rooms, treatment rooms and multidisciplinary meeting rooms in the new outpatient facility at Morriston Hospital. We also have a dedicated Head &amp; Neck ward for all our emergency and elective patients. There is free access to large children's ward for paediatric patients. Daycase patients have access to Theatre Admissions Unit for same day discharge. There is a dedicated adult and paediatric theatre for elective operating throughout the week and access to CEPOD theatre for emergency work.</p> <p>The Oral and Maxillofacial Surgery clinical team currently includes 7 consultants, 3 specialist trainees, 4 specialty doctors and 9 dental and medical foundation and core trainees.</p> |
| 11. | <b>Primary Care training element</b>                        | No primary care commitment  |
| 12. | <b>Pattern of working, including any on-call commitment</b> | <p>The DCT will be part of 7 1<sup>st</sup> tier trainees that includes a foundation medical trainee and a core surgical trainee. The working pattern is an 7-week cycle (1:7) rotating through operating theatres, outpatient activities including treatment sessions, day case theatre, ward and on call duties. The post includes resident out of hours on call duties based at Morriston Hospital.</p> <p>The DCT on call commitment will be a split between weekdays and weekend covering days or nights in a rolling rota.</p> <p><b><i>NB: There will be an on call uplift applied to the salary of these posts to account for the extra working hours. The exact amount can be confirmed by Swansea Bay University Health Board.</i></b></p>  |
| 13. | <b>Educational programme summary and library facilities</b> | The DCT will have the opportunity to attend outpatient clinics and treatment sessions. Experience will be gained  |

|            |   |  |
|------------|---|--|
|            |   | <p>working closely with medical and surgical colleagues in all clinical areas. The DCT will attend theatre sessions and encouraged to develop their surgical skills appropriate for their level. The DCT will be encouraged to participate in clinical audit and there are opportunities to pursue research.</p> <p>In addition there are structured departmental educational activities: weekly journal club, monthly clinical governance days, and monthly teaching sessions on core topics. Trainees are encouraged and supported to actively participate in these activities.</p> <p>There are excellent library facilities both at Morriston Hospital and Princess of Wales Hospital.</p> |
