Dental Core Training

Post: HEE Yorkshire and Humber - Bradford - DCT1 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

3. Location

Location 1

Bradford Teaching Hospitals Bradford Royal Infirmary

Oral and Maxillofacial Surgery

Duckworth Lane
BD9 6RJ

Location 2

Bradford Teaching Hospitals St Lukes Hospital

Maxillofacial Unit

Little Horton Lane
BD5 0NA

Location 3

Airedale General Hospital

Oral and Maxillofacial Surgery

Skipton Lane
Steeton
BD20 6TD

Location 4

Huddersfield Royal Infirmary

Huddersfield

Acre Street Lindley
HD3 3EA

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Regular Dento-alveolar lists with supervision

Curriculum points: C3 Oral Surgery - 3, 27, 28, 33, 43, 47)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 5, 6, 7, 9, 10, 11, 12, 14, 16, 17, 18, 19, 20, 22, 24, 27, 28, 32, 33, 35, 36, 40, 41, 43, 44, 47, 46, 48)

Clinical deliverable 2:

Appropriate management of medically compromised patients (within outpatient, day-case and inpatient settings) Curriculum points: C3 Oral Surgery - 52, 6, 9, 21, 26

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 22)

Clinical deliverable 3:

Recognition and management of oral lesions

Curriculum points: C3 Oral Surgery - 1, 2, 4, 14, 22, 24

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 3, 14, 22, 47)

Management of emergency Maxillofacial admissions (dental trauma, maxillofacial trauma and oral-facial infections)

Curriculum points: C3 Oral Surgery - 53, 10, 30, 49, 50, 51, 52)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 7, 38, 39, 42, 45, 51, 52, 49, 50, 25)

Clinical deliverable 5:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

Curriculum points: C3 Oral Surgery - 37, 16)

You

(Mapped to DCT Curriculum points: C3 Oral Surgery - 4, 7, 12, 16, 26, 38, 52)

Clinical deliverable 6:

Regular access to the management of facial lacerations
Curriculum points: C3 Oral Surgery - 46, 40)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 5, 7, 35, 46, 48)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Bradford Royal Infirmary (BRI) is the main base at which the post-holder will be working. All on-call commitments are at BRI. There are several out-reach clinics to the peripheral hospitals (approximately 1 day per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between BRI and SLH is around 20 minutes by car. There is a free shuttle bus available from both hospitals (every 30 minutes peak times and hourly non-peak times) HRI is 9 miles from BRI and AGH is 15 miles from BRI. There are public buses to these hospitals but the easiest way to travel between all hospitals is using one's own car. Travel expenses will be re-imbursed

8. Additional Information about the Post

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
 - Adult and paediatric trauma,
 - Facial deformity (Orthognathic),
 - Skin cancer,
 - Head and neck cancer (surgery performed at Leeds).
 - Treatment of patients under local and general anaesthesia
- use of implants in rehabilitation of the oral cavity

There is direct senior supervision in theatre, clinics and treatment sessions with support available at all times. Teaching both clinical and non-clinical is an important aspect of this post.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly CG meeting encompassing all aspects of quality care and management. There are regular teaching sessions covering topics relevant to OMFS and DCTs are able to attend the mandatory

regional teaching programme.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: All clinics and lists are with Consultant or senior supervision. There are 3-4 days clinics, one day theatre list and LA list as well as half day study session (Oral and Maxillofacial Surgery)

The standard working hours are:

The working pattern is a 1:6 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm. When in oncology lists finish times are variable and if finishing outside core hours the trainee can claim back these hours

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

ON-call is 1in6 and is onsite. There is a middle grade second on-call on site during the day and offsite out of hours and Consultant third on-call at home out of hours.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The local Induction takes place at BRI over the first week with protected time to attend. DCT1 are not expected to cover on-call duties within the first week.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with regular teaching sessions on topics related to Oral, Dental and Maxillofacial surgery and medicine. Trainees are encouraged to develop teaching presentation skills with confidence. There are monthly journal clubs and media based teaching as well.

Other opportunities

There is a monthly Clinical Governance meeting encompassing all aspects of quality patient care and management.

Encouragement is given to presenting projects and assisting in publications and presentations.

Local facilities

There is an excellent Postgraduate centre that offers a comprehensive range of Postgraduate training services including a dental phantom head lab and a simulation centre as well as ward based simulation teaching centre. The library and information service is provided in association with the local authority service. The library houses a large stock of dental, oral and head and neck surgery volumes and takes all major current journals. Full inter-library loan and request service are available. There is access to relevant books on all aspects of medicine and healthcare alongside an Athens account for online resources.

Other facilities

Childcare facilities are available on-site for employed staff (space dependent). Computer facilities are provided within the department for DCTs who have their own departmental library and study room. Food and drink are available from the cafe and restaurant with out-of-hours vending machines.

13. Employer

The details of the employing trust/organisation are:
Bradford Teaching Hospitals NHS Foundation Trust
Duckworth Lane
BD9 6RJ

Version 2020.1.1

Dental Core Training

HEE Yorkshire and Humber - Two year post - DCT 1 - Hull - OMFS & DCT 2 Hull Paediatric and Special Care Dentistry - Year 1 of 2

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 1 + 2** level and has a duration of **24 Months**.

3. Location

Location 1

Castle Hill Hospital, Hull Royal Infirmary, NLAG Trust sites.

Dept of Oral and Maxillo-Facial Surgery

Castle Hill Hospital, Castle Rd, Cottingham HU16 5JQ

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

MOS taught on a one to one basis.

General OMFS (including oral medicine conditions), facial deformity/head and neck clinics/MDT. Day case GA for OS. Management of facial trauma.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The timetable is over a ten week cycle. Five of the weeks will be with an allocation to a specific area, e.g. Oral Surgery, deformity, oncology with sessions in clinics, day case theaters, MOS, and in patient operating built in to those session. The other five week cycle will be for on call with mandatory rest periods following daytime on call and before and after night time on call.

7. Travelling Commitment

The OMFS department at Hull utilise a "hot" and "cold" site. The out patients department, administrative building and in patient elective work all being delivered at Castle Hill Hospital (cold site). Trauma and daycase GA operating is at Hull Royal Infirmary (hot site).

In addition we offer GA theatre lists and MOS/clinics at Goole, Scunthorpe and Grimsby sites (NLAG)

Hull Royal is in the centre and approximately 5 minutes walk from the train station.

Castle Hill is approximately 20 minutes drive from the train station and is served by public transport.

The satellite sites are approximately 40 minutes drive away and are served by buses/trains.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT1 post, there is a separate document covering the DCT2 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry.

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

DCT1

The trainee will have a well-supported rotation through our post.

MOS is on a one to one basis. General OMFS clinics will have a wide exposure to all aspects of OMFS including patients with oral medicine needs. Day case GA offers one to one training in oral surgery.

Facial deformity sessions and in patient theatre sessions.
 Oncology sessions includes attendance at head and neck clinics and MDT's.
 In patient operating will give exposure to surgical management of head and neck malignancies.
 The trainee is welcome to attend ward rounds and will be allocated to ward duties as part of their rotation.
 Trainees are able to attend all deanery teaching sessions (10 in year 1) and bi-monthly teaching sessions are held in house.
 We have clinical governance meetings every month and trainees are expected to present audits there. For those interested in research support will also be given.
 As part of their OMFS DCT 1's will be able to attend sessions with our restorative, orthodontic and paedodontic colleagues.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

This depends upon the particular point in the rotation you are in. An example week would include In patient theatre for a day, all day clinic, study/teaching session, MOS/clinic for two days. Another is day case GA for OS (AM) clinic (PM), MOS then clinic, study then MOS, in patient theatre all day, then clinic/MOS

The standard working hours are:

Days typically start at 0800 and finish at 1730 Attendance after 1730 for major cases is not mandated but at the discretion of the trainee. On call block is from 0800 to 2000 with dedicated rest time before and after on call sessions.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

One day and night block per 10 week cycle. On call is divided into 3 nights max with time off before and after. Day and night on call is staggered over five weeks to incorporate mandatory rest periods. Resident on site for on call shift. 2nd on call present for daytime with 20 minute return to base after hours.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Trainees are welcome (and encouraged) to attend before post commencement.

Teaching programme

As per MaxCourse via the deanery website. 10 regional sessions per year.

Local programme

All trainees are allocated educational supervisors.

One session of protected study/teaching per week.

Monthly clinical governance meetings.

Attendance at journal clubs is supported.

Other opportunities

Audit and research is supported throughout the post with opportunity given to present and undertake local teaching/training.

Local facilities

We have a well equipped library affiliated with the Hull York Medical School.

Office space is provided in the administration block.

Other facilities

On call appropriate rest facilities are available. Catering provision is consummate with a tertiary referral acute NHS Trust.

13. Employer

The details of the employing trust/organisation are:

Yorkshire and Humber deanery and Hull University Teaching Hospitals, Castle Rd, Cottingham HU16 5JQ

Clinical deliverable 5:

Regular access to the management of facial lacerations

(Mapped to DCT Curriculum points: C3 Oral Surgery - 46, 40)

Clinical deliverable 6:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 16, 30)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The post-holder will spend the majority of their time at Rotherham Hospital, but will also rotate to Mexborough Montagu Hospital, where they will attend out-patient clinics and day surgery theatres, according to a rolling timetable.

7. Travelling Commitment

The post-holder will be expected to travel to Mexborough hospital as part of the rolling programme, typically 1 week in 8 is spent in at Mexborough Montagu Hospital. The journey is approximately 11 miles and takes 25 minutes by car. The journey takes 60 minutes by public transport, transport by taxi is recommended and paid for, for those who do not drive.

Travel expenses can be claimed, if the post-holder wishes to claim for use of their own car appropriate business insurance is required.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT1 year, there is a separate document covering the DCT2 year.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry.

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

DCT1

The post-holder will spend the majority of their time at Rotherham General Hospital, but will also rotate to Mexborough Montagu Hospital, where they will attend out-patient clinics and day surgery theatres, according to a rolling timetable.

Clinical duties of the postholder:

- Attendance at Day Surgery and In-Patient theatre operating lists.
- Assistance in the operating theatre.
- Attendance at Minor Oral Surgery local anaesthetic operating sessions.
- Attendance at OMFS out-patient clinics (there is also scope for trainees to attend Orthodontic clinics according to their individual training needs or wishes).
- Assessment and initial management of patients referred to the OMFS department from A+E, GDPs, GPs, and other hospital departments.
- Clerking of patients for theatre.
- Management of OMFS in-patients on the wards.

The Maxillofacial Surgery Unit undertakes a wide range of treatments. Of particular value to the post-holder is that they will have ample opportunity in this post to gain exposure to dentoalveolar surgery under both local anaesthetic and general anaesthetic. The post-holder will be encouraged to carry out Minor Oral Surgery as appropriate to their level of experience, with senior advice and supervision available at all times.

The department treats a large volume of maxillofacial trauma. In addition to the routine management of trauma the consultants in the department are experienced in the use of up-to-date techniques such as endoscopically assisted fixation of fractures of the mandibular condyle, and orbital reconstruction using custom-made orbital implants. Approximately 350 emergency cases are operated on in the department per year.

Special interests within the department are head and neck cancer surgery, salivary gland surgery (including the management of salivary gland calculi using sialoendoscopy), orthognathic surgery, the surgical management of skin cancers of the head and neck, and implant surgery.

Patients with head and neck mucosal malignancy are diagnosed in the departments at Rotherham and Mexborough, with all major Head and Neck cancer surgery operating carried out at the Head and Neck Cancer surgical centre at the Royal Hallamshire Hospital in Sheffield. The post-holder has the opportunity included in their timetable to attend the Head and Neck operating sessions at the Royal Hallamshire Hospital along with Mr Patterson.

The posts require the occupant to provide on call services, and to be resident in the hospital during on call periods: a free on call room will be provided. Whilst on call the post-holder is based at Rotherham General Hospital. The on call shifts are determined by an 8-week rolling rota. There is on call middle grade support for the junior staff provided by the 5 StRs in the region.

There is a strong commitment to teaching from the senior staff in the department, and a weekly teaching session is held within the department. There are bimonthly Audit / Clinical Effectiveness meetings which are held in Rotherham. The postholder will be encouraged to complete an audit project, management project or sustainability project every 6 months and will receive assistance and guidance with this. Presentation of audit and research projects at regional and national meetings is encouraged. Rotherham Hospital has an excellent postgraduate medical education and clinical skills department.

Additional MDT Clinics: Joint OMFS/Orthodontic Mexborough and Rotherham, Joint Orthodontic Restorative Rotherham

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

This is a 12 month, full-time post, in the Department of Restorative Dentistry at Charles Clifford Dental Hospital, Sheffield.

7. Travelling Commitment

The post holder is not required to work off-site.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT2 post, there is a separate document covering the DCT1 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration.

Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

The post holder will undertake 2 new patient clinics, 6 treatment clinics, 1 didactic teaching session and 1 study/admin session per week.

The standard working hours are:

Monday-Friday 8:30am - 5:00pm

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

The post holder will shadow clinics over the first 2 weeks of the post

Teaching programme

The post holder will be encouraged to attend the mandatory regional teaching programme through HEE.

There is a dedicated Friday PM DCT teaching programme.

Study leave is granted in accordance with the HEYH curriculum delivery matrix.

Local programme

The post holder will have an allocated Educational Supervisor.

The post holder will undertake 2 new patient clinics, 6 treatment clinics, 1 didactic teaching session and 1 study/admin session per week.

The post holder will treat patients under direct consultant supervision on the polyclinic.

There is a journal club each Tuesday morning between 8:30 and 9:30

Other opportunities

The post holder is expected to undertake and present an audit.

There are opportunities to be involved in research and gain teaching and/or management experience

Local facilities

The post holder is able to access library facilities at the Royal Hallamshire Hospital.

There is dedicated office space.

Other facilities

Computer facilities are provided within the department.

13. Employer

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 4, 14, 22, 24)

Clinical deliverable 4:

Management of emergency Maxillofacial admissions (dental trauma, maxillofacial trauma and oral-facial infections)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 10, 30, 49, 50, 51, 52, 53)

Clinical deliverable 5:

Regular access to the management of facial lacerations

(Mapped to DCT Curriculum points: C3 Oral Surgery - 46, 40)

Clinical deliverable 6:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 37, 16)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Pinderfields Hospital (PGH) is the main base at which the post-holder will be working. All on-call commitments are at PGH. There are several out-reach clinics to the peripheral hospitals (approximately 1 clinic per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between each Hospital is around 30 minutes by car. There is a free shuttle bus available from Pinderfields Hospital (every 30 minutes peak times and hourly non-peak times)

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT1 post, there is a separate document covering the DCT2 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry.

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

DCT1

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
- Adult and paediatric trauma,
- Facial deformity (Orthognathic),
- Skin cancer,
- TMJ surgery & Head and neck cancer (surgery performed at Leeds).
- Treatment of patients under local anaesthesia, IV sedation and general anaesthesia.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly meeting encompassing audit and journal club. There is a bimonthly teaching session covering topics relevant to OMFS and DCTs are made available to attend the mandatory regional teaching programme.

The department is combined with Orthodontics, and opportunities to shadow are possible. A monthly joint orthodontic-paediatric clinic and oral surgery-orthodontics clinic are also available to shadow.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: 2 Consultant/Specialty Dentist outpatient clinics (trauma, Maxillofacial Surgery and Oral Surgery), at least 1 GA or LA operating list (half or full day), 1 study session, 0.5 teaching session

The standard working hours are:

The working pattern is a 1:7 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm, 8pm-8:30am. Within a 7 week rotation, there will be a maximum of 7 days and 7 nights on-call (non-consecutive)

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

The acute service is totally interlinked with Leeds Teaching Hospitals. A multi-tiered on-call service between Wakefield and Leeds is provided. The 2nd (registrar level) and 3rd on-call (Consultant level) is shared between Leeds and Wakefield. However, the Dental Core Trainee is resident on-call for Pinderfields only.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The local Induction takes place at Pinderfields hospital over the first 2 weeks with protected time to attend. DCT1 are not expected to cover on-call duties within the first 2 weeks.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with 2 teaching sessions per month on topics related to Maxillofacial surgery, Oral surgery/Medicine and Orthodontics.

Other opportunities

There is a monthly Clinical Governance meeting encompassing audit and journal club.

Encouragement is given to presenting projects and assisting in publications.

Local facilities

The Postgraduate centre offers a comprehensive range of Postgraduate training services. The library and information service is provided in association with the local authority service, and has three full-time librarians. The library houses 7000 volumes and takes 260 current journals. Full inter-library loan and request service are available. There is access to relevant books in Maxillofacial Surgery and Dentistry, alongside an Athens account for online resources.

Other facilities

Childcare facilities are available on-site for employed staff (space dependent- see Abacus Nursery). Computer facilities are provided within the department for DCTs. Food and drink are available from the cafe and restaurant with out-of-hours vending machines.

13. Employer

The details of the employing trust/organisation are:

Mid-Yorkshire NHS Trust
Pinderfields Hospital
Aberford Road
Wakefield
WF1 4DG

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Access to new patient clinic, minimum weekly 3-5 patients

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 8, 10, 9, 17, 26, 4)

Clinical deliverable 2:

MOS clinic minimum weekly

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 48, 47, 46, 40, 36, 35, 27, 29)

Clinical deliverable 3:

Supported on call and ward duties (1 in 6 for each)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 51, 50, 49, 46, 45, 40, 39, 26)

Clinical deliverable 4:

Theatre

(Mapped to DCT Curriculum points: C3 Oral Surgery - 12, 35, 40, 46, 48)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Each trainee will be "attached" to a consultant for an eight week period.

Attachments rotate to allow a broad experience of, and development within, a variety of sub-specialties.

Travel to peripheral units offers excellent opportunities for one to one training and WBAs. This work will be shared fairly to avoid unfair travel burden.

7. Travelling Commitment

Travel by car between units detailed above.

A driving licence and own transport are desirable, however there is possible access to trust vehicles during DCT1 subject to application and availability.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT1 post, there is a separate document covering the DCT2 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry.

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

DCT1

- Clinical work on the ward and in the emergency department including an evening and weekend on-call duty.
- Supporting Consultants, SAS Doctors and Registrars in theatre, including major head and neck cancer cases with free flap reconstruction.
 - o As part of your support in theatre, you will receive training in a broad spectrum of maxillofacial procedures including oral surgery and skin cancer surgery.
- Out-patient clinics – oral surgery procedures, skin cancer biopsies and new patient consultations.
- All clinics are supported by a consultant, SAS Dr or SpR.
- Active involvement in clinical governance activity within the department including, audit and service evaluation/improvement.
- Involvement in departmental teaching is expected.
- Close ties with the restorative and orthodontic departments allows those with interest opportunities to shadow as timetabling allows.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Clinic 4pw Theatre 4pw SPA (study/personal/patient admin) 1pw Teaching
1in7wk additional to study days

The standard working hours are:

Standard Shift 08:00-18:00 Day Ward Shift 07:45-17:00 Late Ward/on-call Shift
14:00-00:00 Oncology Theatre 14:00-00:00 Weekend and BH shifts
08:00-20:00 Weekends, Ward/Late shifts and oncology theatre rotate on an
average 1 in 6 (1in5/1in7) flexible for leave. Sickness will be covered with pay
at locum rates where applicable.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

- All on call is resident and based at York Hospital.
- On call is fully supported by non-resident SAS or SpR and Consultant.
- No travelling between sites is required when on call.
- DCT1 on-call component is on a 1 in 6 rota (EWTD compliant) shared with DCT2 and LDFT2. (LDFT1s cover daytime ward only)
- Weekday On call shift hours are 15:00 – 00:00
- Oncology theatre shift hours 15:00 – 00:00 with zero hours the following day.
- Weekend on call shifts are 08:00-20:00.
- Zero hours allowances are given prior to and after the weekend shifts for EWTD compliance.
- Daytime ward duty is also a 5 day block covered on a 1 in 6 rota but classed as normal clinical work for timetabling purposes.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Please see below.

Please contact TPD to arrange shadowing

Teaching programme

Mandated Regional DCT1 Study Day programme of up to 9 days including other dental specialties and skills with the aim to develop career choices for a well rounded and broadly trained professional.

Local programme

There is a weekly trainee led, SpR facilitated tutorial and journal club, and a one in 5 weekly half-day teaching session. A consultant, SpDr or SpR facilitate the half-day session.

We expected that this teaching to be trainee driven, with each trainee delivering at least one prepared session to their colleagues. Topics will be in line with the DCT curriculum.

Other opportunities

There is a research department based at York Hospital/HYMS. Involvement with research is actively encouraged and supported.

Local facilities

Both York and Scarborough hospitals have excellent libraries, with study and conference rooms. Office space for SPA and patient admin is available in the

department.

Other facilities

A doctors mess with hot drinks, fruit, biscuits, bread and Sky tv is available to those who pay a small mess fee by salary deduction. Regular social events are held.

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 1, 2, 3, 4, 6, 7, 8, 10, 12, 13, 14, 18, 19, 20)

Clinical deliverable 5:

Treatment of special needs adults with sedation

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 5, 15)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

No specific rotation

7. Travelling Commitment

Significant distances between sites a driving licence and own transport are desirable.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to

DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT2 post, there is a separate document covering the DCT1 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

This post is an excellent opportunity to gain experience in both paediatric dentistry and special care dentistry in a salaried dental service setting. Clinical supervision comes from specialists in both disciplines.

There will be opportunity to gain clinical experience in the following areas:

- Paediatric dentistry
- Access dentistry
- General dentistry, with more complex cases
- Sedation with relative analgesia
- General anaesthetic, treatment planning and clinical sessions
- Special care dentistry including domiciliary care
- Prosthetics
- Epidemiology

The clinical cases come from current service provision, referrals into the service, access patients and the dental waiting list. There will be opportunities to receive tutorials, have clinical supervision and shadow experienced clinicians. Clinical governance projects are encouraged with a view to presentation at national meetings. Whilst of itself a rewarding and valuable experience, the post would be of particular value to those who are interesting in pursuing careers in paediatric dentistry, special care dentistry and orthodontics.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

The details of the Primary Care element of this post are:

Full year is 80% in primary care setting

11. Pattern of Working

The approximate number of treatment sessions per working week is:

9 clinical sessions and 1 study session/week

The standard working hours are:

08.30 - 1700

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be NO opportunities for shadowing before the post commences.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Dental Core Training

HEE Yorkshire and Humber - Two Year Post - DCT1 - York - OMFS & DCT2 - York and Scarborough - Paediatric and Community Dental Services - Year 1 of 2

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 1 + 2** level and has a duration of **24 Months**.

3. Location

Location 1

The York Hospital

Oral and Maxillofacial Surgery

The York Hospital
Wigginton Road
York
YO31 8HE

Location 2

Scarborough Hospital

Oral and Maxillofacial Surgery

Woodlands Drive
Scarborough
North Yorkshire
YO12 6QL

Location 3

Bridlington Hospital

Oral and Maxillofacial Surgery

Bessingby Road
Bridlington
East Yorkshire
YO16 4QP

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Access to new patient clinic, minimum weekly 3-5 patients

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 8, 10, 9, 17, 26, 4)

Clinical deliverable 2:

MOS clinic minimum weekly

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 48, 47, 46, 40, 36, 35, 27, 29)

Clinical deliverable 3:

Supported on call and ward duties (1 in 6 for each)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 51, 50, 49, 46, 45, 40, 39, 26)

Clinical deliverable 4:

Theatre

(Mapped to DCT Curriculum points: C3 Oral Surgery - 12, 35, 40, 46, 48)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Each trainee will be "attached" to a consultant for an eight week period.

Attachments rotate to allow a broad experience of, and development within, a variety of sub-specialties.

Travel to peripheral units offers excellent opportunities for one to one training and WBAs. This work will be shared fairly to avoid unfair travel burden.

7. Travelling Commitment

Travel by car between units detailed above.

A driving licence and own transport are desirable, however there is possible access to trust vehicles during DCT1 subject to application and availability.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT1 post, there is a separate document covering the DCT2 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry.

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

DCT1

- Clinical work on the ward and in the emergency department including an evening and weekend on-call duty.
- Supporting Consultants, SAS Doctors and Registrars in theatre, including major head and neck cancer cases with free flap reconstruction.
 - o As part of your support in theatre, you will receive training in a broad spectrum of maxillofacial procedures including oral surgery and skin cancer surgery.
- Out-patient clinics – oral surgery procedures, skin cancer biopsies and new patient consultations.
- All clinics are supported by a consultant, SAS Dr or SpR.
- Active involvement in clinical governance activity within the department including, audit and service evaluation/improvement.
- Involvement in departmental teaching is expected.
- Close ties with the restorative and orthodontic departments allows those with interest opportunities to shadow as timetabling allows.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Clinic 4pw Theatre 4pw SPA (study/personal/patient admin) 1pw Teaching
1in7wk additional to study days

The standard working hours are:

Standard Shift 08:00-18:00 Day Ward Shift 07:45-17:00 Late Ward/on-call Shift
14:00-00:00 Oncology Theatre 14:00-00:00 Weekend and BH shifts
08:00-20:00 Weekends, Ward/Late shifts and oncology theatre rotate on an
average 1 in 6 (1in5/1in7) flexible for leave. Sickness will be covered with pay
at locum rates where applicable.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

- All on call is resident and based at York Hospital.
- On call is fully supported by non-resident SAS or SpR and Consultant.
- No travelling between sites is required when on call.
- DCT1 on-call component is on a 1 in 6 rota (EWTD compliant) shared with DCT2 and LDFT2. (LDFT1s cover daytime ward only)
- Weekday On call shift hours are 15:00 – 00:00
- Oncology theatre shift hours 15:00 – 00:00 with zero hours the following day.
- Weekend on call shifts are 08:00-20:00.
- Zero hours allowances are given prior to and after the weekend shifts for EWTD compliance.
- Daytime ward duty is also a 5 day block covered on a 1 in 6 rota but classed as normal clinical work for timetabling purposes.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Please see below.

Please contact TPD to arrange shadowing

Teaching programme

Mandated Regional DCT1 Study Day programme of up to 9 days including other dental specialties and skills with the aim to develop career choices for a well rounded and broadly trained professional.

Local programme

There is a weekly trainee led, SpR facilitated tutorial and journal club, and a one in 5 weekly half-day teaching session. A consultant, SpDr or SpR facilitate the half-day session.

We expected that this teaching to be trainee driven, with each trainee delivering at least one prepared session to their colleagues. Topics will be in line with the DCT curriculum.

Other opportunities

There is a research department based at York Hospital/HYMS. Involvement with research is actively encouraged and supported.

Local facilities

Both York and Scarborough hospitals have excellent libraries, with study and conference rooms. Office space for SPA and patient admin is available in the

department.

Other facilities

A doctors mess with hot drinks, fruit, biscuits, bread and Sky tv is available to those who pay a small mess fee by salary deduction. Regular social events are held.

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Paediatric Dentistry

Special Care Dentistry

Community Dental Service

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Supervised Outpatient treatment of Paediatric Patients

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 20, 16, 1, 2, 3, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 17, 21, 22, 23, 24)

Clinical deliverable 2:

Supervised treatment of paediatric patients using inhalation sedation

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 4, 18)

Clinical deliverable 3:

Work up and supervised treatment of children under general anaesthetic

(Mapped to DCT Curriculum points: C4 Paediatric Dentistry - 19)

Clinical deliverable 4:

Supervised treatment of special needs adults in outpatient setting

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 1, 2, 3, 4, 7, 8, 10, 11, 12, 13, 14, 16, 18, 19, 20)

Clinical deliverable 5:

Supervised treatment of special care adults under sedation

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 5, 6, 15, 17)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

No specific rotation

7. Travelling Commitment

Significant distances between sites, a driving licence and own transport are desirable.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to

DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. HEE Yorkshire and Humber - Two Year Post - DCT1 - York - OMFS & DCT2 - York and Scarborough - Paediatric and Community Dental Services - Year 2 of 2.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

This post is an excellent opportunity to gain experience in both paediatric dentistry and special care dentistry in a salaried dental service setting. Clinical supervision comes from specialists in both disciplines.

There will be opportunity to gain clinical experience in the following areas:

- Paediatric dentistry
- Access dentistry
- General dentistry, with more complex cases
- Sedation with relative analgesia
- General anaesthetic, treatment planning and clinical sessions
- Special care dentistry including domiciliary care
- Prosthetics
- Epidemiology

The clinical cases come from current service provision, referrals into the service, access patients and the dental waiting list. There will be opportunities to receive tutorials, have clinical supervision and shadow experienced clinicians. Clinical governance projects are encouraged with a view to presentation at national meetings. Whilst of itself a rewarding and valuable experience, the post would be of particular value to those who are interesting in pursuing careers in paediatric dentistry, special care dentistry and orthodontics.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

The details of the Primary Care element of this post are:

Full year is 80% in primary care setting

11. Pattern of Working

The approximate number of treatment sessions per working week is:
9 clinical sessions and one admin session a week

The standard working hours are:

0830 - 1700

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be NO opportunities for shadowing before the post commences.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Post: HEE Yorkshire and Humber - Hull University Teaching Hospitals - DCT1 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

3. Location

Location 1

Castle Hill Hospital, Hull Royal Infirmary, NLAG Trust sites.

Dept of Oral and Maxillo-Facial Surgery

Castle Hill Hospital, Castle Rd, Cottingham HU16 5JQ

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

MOS taught on a one to one basis.

General OMFS (including oral medicine conditions), facial deformity/head and neck clinics/MDT. Day case GA for OS. Management of facial trauma.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The timetable is over a ten week cycle. Five of the weeks will be with an allocation to a specific area, e.g. Oral Surgery, deformity, oncology with sessions in clinics, day case theaters, MOS, and in patient operating built in to those session. The other five week cycle will be for on call with mandatory rest periods following daytime on call and before and after night time on call.

7. Travelling Commitment

The OMFS department at Hull utilise a "hot" and "cold" site. The out patients department, administrative building and in patient elective work all being delivered at Castle Hill Hospital (cold site).
Trauma and daycase GA operating is at Hull Royal Infirmary (hot site).

In addition we offer GA theatre lists and MOS/clinics at Goole, Scunthorpe and Grimsby sites (NLAG)

Hull Royal is in the centre and approximately 5 minutes walk from the train station.

Castle Hill is approximately 20 minutes drive from the train station and is served by public transport.

The satellite sites are approximately 40 minutes drive away and are served by buses/trains.

8. Additional Information about the Post

The trainee will have a well-supported rotation through our post.
MOS is on a one to one basis. General OMFS clinics will have a wide exposure to all aspects of OMFS including patients with oral medicine needs.
Day case GA offers one to one training in oral surgery.
Facial deformity sessions and in patient theatre sessions.
Oncology sessions includes attendance at head and neck clinics and MDT's.
In patient operating will give exposure to surgical management of head and neck malignancies.

The trainee is welcome to attend ward rounds and will be allocated to ward duties as part of their rotation.

Trainees are able to attend all deanery teaching sessions (10 in year 1) and bi-monthly teaching sessions are held in house.

We have clinical governance meetings every month and trainees are expected to present audits there. For those interested in research support will also be given.

As part of their OMFS DCT 1's will be able to attend sessions with our restorative, orthodontic and paedodontic colleagues.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

This depends upon the particular point in the rotation you are in. An example week would include In patient theatre for a day, all day clinic, study/teaching session, MOS/clinic for two days. Another is day case GA for OS (AM) clinic (PM), MOS then clinic, study then MOS, in patient theatre all day, then clinic/MOS

The standard working hours are:

Days typically start at 0800 and finish at 1730 Attendance after 1730 for major cases is not mandated but at the discretion of the trainee. On call block is from 0800 to 2000 with dedicated rest time before and after on call sessions.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

One day and night block per 10 week cycle. On call is divided into 3 nights max with time off before and after. Day and night on call is staggered over five weeks to incorporate mandatory rest periods. Resident on site for on call shift. 2nd on call present for daytime with 20 minute return to base after hours.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Trainees are welcome (and encouraged) to attend before post commencement.

Teaching programme

As per MaxCourse via the deanery website. 10 regional sessions per year.

Local programme

All trainees are allocated educational supervisors.

One session of protected study/teaching per week.

Monthly clinical governance meetings.

Attendance at journal clubs is supported.

Other opportunities

Audit and research is supported throughout the post with opportunity given to present and undertake local teaching/training.

Local facilities

We have a well equipped library affiliated with the Hull York Medical School. Office space is provided in the administration block.

Other facilities

On call appropriate rest facilities are available. Catering provision is consummate with a tertiary referral acute NHS Trust.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 37, 16)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Pinderfields Hospital (PGH) is the main base at which the post-holder will be working. All on-call commitments are at PGH. There are several out-reach clinics to the peripheral hospitals (approximately 1 clinic per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between each Hospital is around 30 minutes by car. There is a free shuttle bus available from Pinderfields Hospital (every 30 minutes peak times and hourly non-peak times)

8. Additional Information about the Post

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
- Adult and paediatric trauma,
- Facial deformity (Orthognathic),
- Skin cancer,
- TMJ surgery & Head and neck cancer (surgery performed at Leeds).
- Treatment of patients under local anaesthesia, IV sedation and general anaesthesia.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly meeting encompassing audit and journal club. There is a bimonthly teaching session covering topics relevant to OMFS and DCTs are made available to attend the mandatory regional teaching programme.

The department is combined with Orthodontics, and opportunities to shadow are possible. A monthly joint orthodontic-paediatric clinic and oral surgery-orthodontics clinic are also available to shadow.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: 2 Consultant/Specialty Dentist outpatient clinics (trauma, Maxillofacial Surgery and Oral Surgery), at least 1 GA or LA operating list (half or full day), 1 study session, 0.5 teaching session

The standard working hours are:

The working pattern is a 1:7 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm, 8pm-8:30am. Within a 7 week rotation, there will be a maximum of 7 days and 7 nights on-call (non-consecutive)

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

The acute service is totally interlinked with Leeds Teaching Hospitals. A multi-tiered on-call service between Wakefield and Leeds is provided. The 2nd (registrar level) and 3rd on-call (Consultant level) is shared between Leeds and Wakefield. However, the Dental Core Trainee is resident on-call for Pinderfields only.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The local Induction takes place at Pinderfields hospital over the first 2 weeks with protected time to attend. DCT1 are not expected to cover on-call duties within the first 2 weeks.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with 2 teaching sessions per month on topics related to Maxillofacial surgery, Oral surgery/Medicine and Orthodontics.

Other opportunities

There is a monthly Clinical Governance meeting encompassing audit and journal club.

Encouragement is given to presenting projects and assisting in publications.

Local facilities

The Postgraduate centre offers a comprehensive range of Postgraduate training services. The library and information service is provided in association with the local authority service, and has three full-time librarians. The library houses 7000 volumes and takes 260 current journals. Full inter-library loan and request service are available. There is access to relevant books in Maxillofacial Surgery and Dentistry, alongside an Athens account for online resources.

Other facilities

Childcare facilities are available on-site for employed staff (space dependent- see Abacus Nursery). Computer facilities are provided within the department for DCTs. Food and drink are available from the cafe and restaurant with out-of-hours vending machines.

13. Employer

Post: HEE Yorkshire and Humber - The Rotherham NHS Foundation Trust - DCT1 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 1** level and has a duration of **12 Months**.

3. Location

Location 1

The Rotherham NHS Foundation Trust

OMFS Department

Moorgate Road
Rotherham
S602UD

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Weekly supervised minor oral surgery list of 3-5 patients

Clinical deliverable 2:

Appropriate management of medically compromised patients (within outpatient, day-case and inpatient settings)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 6, 9, 21, 26, 52)

Clinical deliverable 3:

Recognition and management of oral lesions

(Mapped to DCT Curriculum points: C3 Oral Surgery - 17)

Clinical deliverable 4:

Management of emergency Maxillofacial admissions (dental trauma, maxillofacial trauma and oral-facial infections)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 49, 50, 51, 52, 53)

Clinical deliverable 5:

Regular access to the management of facial lacerations

(Mapped to DCT Curriculum points: C3 Oral Surgery - 46, 40)

Clinical deliverable 6:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 16, 30)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The post-holder will spend the majority of their time at Rotherham Hospital, but will also rotate to Mexborough Montagu Hospital, where they will attend out-patient clinics and day surgery theatres, according to a rolling timetable.

7. Travelling Commitment

The post-holder will be expected to travel to Mexborough hospital as part of the rolling programme, typically 1 week in 8 is spent in at Mexborough Montagu Hospital. The journey is approximately 11 miles and takes 25 minutes by car. The journey takes 60 minutes by public transport, transport by taxi is recommended and paid for, for those who do not drive.

Travel expenses can be claimed, if the post-holder wishes to claim for use of their own car appropriate business insurance is required.

8. Additional Information about the Post

The post-holder will spend the majority of their time at Rotherham General Hospital, but will also rotate to Mexborough Montagu Hospital, where they will attend out-patient clinics and day surgery theatres, according to a rolling timetable.

Clinical duties of the postholder:

- Attendance at Day Surgery and In-Patient theatre operating lists.
- Assistance in the operating theatre.
- Attendance at Minor Oral Surgery local anaesthetic operating sessions.
- Attendance at OMFS out-patient clinics (there is also scope for trainees to attend Orthodontic clinics according to their individual training needs or wishes).
- Assessment and initial management of patients referred to the OMFS department from A+E, GDPs, GPs, and other hospital departments.
- Clerking of patients for theatre.
- Management of OMFS in-patients on the wards.

The Maxillofacial Surgery Unit undertakes a wide range of treatments. Of particular value to the post-holder is that they will have ample opportunity in this post to gain exposure to dentoalveolar surgery under both local anaesthetic and general anaesthetic. The post-holder will be encouraged to carry out Minor Oral Surgery as appropriate to their level of experience, with senior advice and supervision available at all times.

The department treats a large volume of maxillofacial trauma. In addition to the routine management of trauma the consultants in the department are experienced in the use of up-to-date techniques such as endoscopically assisted fixation of fractures of the mandibular condyle, and orbital reconstruction using custom-made orbital implants. Approximately 350 emergency cases are operated on in the department per year.

Special interests within the department are head and neck cancer surgery, salivary gland surgery (including the management of salivary gland calculi using sialoendoscopy), orthognathic surgery, the surgical management of skin cancers of the head and neck, and implant surgery.

Patients with head and neck mucosal malignancy are diagnosed in the departments at Rotherham and Mexborough, with all major Head and Neck cancer surgery operating carried out at the Head and Neck Cancer surgical centre at the Royal Hallamshire Hospital in Sheffield. The post-holder has the opportunity included in their timetable to attend the Head and Neck operating sessions at the Royal Hallamshire Hospital along with Mr Patterson.

The posts require the occupant to provide on call services, and to be resident in the hospital during on call periods: a free on call room will be provided. Whilst on call the post-holder is based at Rotherham General Hospital. The on call shifts are determined by an 8-week rolling rota. There is on call middle grade support for the junior staff provided by the 5 StRs in the region.

There is a strong commitment to teaching from the senior staff in the department, and a weekly teaching session is held within the department. There are bimonthly Audit / Clinical Effectiveness meetings which are held in Rotherham. The postholder will be encouraged to complete an audit project,

management project or sustainability project every 6 months and will receive assistance and guidance with this. Presentation of audit and research projects at regional and national meetings is encouraged. Rotherham Hospital has an excellent postgraduate medical education and clinical skills department.

Additional MDT Clinics: Joint OMFS/Orthodontic Mexborough and Rotherham, Joint Orthodontic Restorative Rotherham

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

Oral and Maxillofacial Surgery

The York Hospital
Wigginton Road
York
YO31 8HE

Location 2

Scarborough Hospital

Oral and Maxillofacial Surgery

Woodlands Drive
Scarborough
North Yorkshire
YO12 6QL

Location 3

Bridlington Hospital

Oral and Maxillofacial Surgery

Bessingby Road
Bridlington
East Yorkshire
YO16 4QP

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Access to new patient clinic, minimum weekly 3-5 patients

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 8, 10, 9, 17, 26, 4)

Clinical deliverable 2:

MOS clinic minimum weekly

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 48, 47, 46, 40, 36, 35, 27, 29)

Clinical deliverable 3:

Supported on call and ward duties (1 in 6 for each)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 51, 50, 49, 46, 45, 40, 39, 26)

Clinical deliverable 4:

Theatre

(Mapped to DCT Curriculum points: C3 Oral Surgery - 12, 35, 40, 46, 48)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Each trainee will be "attached" to a consultant for an eight week period.

Attachments rotate to allow a broad experience of, and development within, a variety of sub-specialties.

Travel to peripheral units offers excellent opportunities for one to one training and WBAs. This work will be shared fairly to avoid unfair travel burden.

7. Travelling Commitment

Travel by car between units detailed above.

A driving licence and own transport are desirable, however there is possible access to trust vehicles during DCT1 subject to application and availability.

8. Additional Information about the Post

- Clinical work on the ward and in the emergency department including an evening and weekend on-call duty.
- Supporting Consultants, SAS Doctors and Registrars in theatre, including major head and neck cancer cases with free flap reconstruction.
 - o As part of your support in theatre, you will receive training in a broad spectrum of maxillofacial procedures including oral surgery and skin cancer

surgery.

- Out-patient clinics – oral surgery procedures, skin cancer biopsies and new patient consultations.
- All clinics are supported by a consultant, SAS Dr or SpR.
- Active involvement in clinical governance activity within the department including, audit and service evaluation/improvement.
- Involvement in departmental teaching is expected.
- Close ties with the restorative and orthodontic departments allows those with interest opportunities to shadow as timetabling allows.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Clinic 4pw Theatre 4pw SPA (study/personal/patient admin) 1pw Teaching
1in7wk additional to study days

The standard working hours are:

Standard Shift 08:00-18:00 Day Ward Shift 07:45-17:00 Late Ward/on-call Shift
14:00-00:00 Oncology Theatre 14:00-00:00 Weekend and BH shifts
08:00-20:00 Weekends, Ward/Late shifts and oncology theatre rotate on an
average 1 in 6 (1in5/1in7) flexible for leave. Sickness will be covered with pay
at locum rates where applicable.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

- All on call is resident and based at York Hospital.
- On call is fully supported by non-resident SAS or SpR and Consultant.
- No travelling between sites is required when on call.
- DCT1 on-call component is on a 1 in 6 rota (EWTD compliant) shared with DCT2 and LDFT2. (LDFT1s cover daytime ward only)
- Weekday On call shift hours are 15:00 – 00:00
- Oncology theatre shift hours 15:00 – 00:00 with zero hours the following day.
- Weekend on call shifts are 08:00-20:00.
- Zero hours allowances are given prior to and after the weekend shifts for EWTD compliance.
- Daytime ward duty is also a 5 day block covered on a 1 in 6 rota but classed as normal clinical work for timetabling purposes.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Please see below.

Please contact TPD to arrange shadowing

Teaching programme

Mandated Regional DCT1 Study Day programme of up to 9 days including other dental specialties and skills with the aim to develop career choices for a well rounded and broadly trained professional.

Local programme

There is a weekly trainee led, SpR facilitated tutorial and journal club, and a one in 5 weekly half-day teaching session. A consultant, SpDr or SpR facilitate the half-day session.

We expected that this teaching to be trainee driven, with each trainee delivering at least one prepared session to their colleagues. Topics will be in line with the DCT curriculum.

Other opportunities

There is a research department based at York Hospital/HYMS. Involvement with research is actively encouraged and supported.

Local facilities

Both York and Scarborough hospitals have excellent libraries, with study and conference rooms. Office space for SPA and patient admin is available in the department.

Other facilities

A doctors mess with hot drinks, fruit, biscuits, bread and Sky tv is available to those who pay a small mess fee by salary deduction. Regular social events are held.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 7, 38, 39, 42, 45, 51, 52, 49, 50, 25)

Clinical deliverable 5:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

Curriculum points: C3 Oral Surgery - 37, 16)

You

(Mapped to DCT Curriculum points: C3 Oral Surgery - 4, 7, 12, 16, 26, 38, 52)

Clinical deliverable 6:

Regular access to the management of facial lacerations
Curriculum points: C3 Oral Surgery - 46, 40)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 5, 7, 35, 46, 48)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Bradford Royal Infirmary (BRI) is the main base at which the post-holder will be working. All on-call commitments are at BRI. There are several out-reach clinics to the peripheral hospitals (approximately 1 day per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between BRI and SLH is around 20 minutes by car. There is a free shuttle bus available from both hospitals (every 30 minutes peak times and hourly non-peak times) HRI is 9 miles from BRI and AGH is 15 miles from BRI. There are public buses to these hospitals but the easiest way to travel between all hospitals is using one's own car. Travel expenses will be re-imbursed

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year. This document covers the DCT1 post, there is a separate document covering the DCT2 post.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry.

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

DCT1

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
- Adult and paediatric trauma,
- Facial deformity (Orthognathic),
- Skin cancer,
- Head and neck cancer (surgery performed at Leeds).
- Treatment of patients under local and general anaesthesia
- use of implants in rehabilitation of the oral cavity

There is direct senior supervision in theatre, clinics and treatment sessions with support available at all times. Teaching both clinical and non-clinical is an important aspect of this post.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly CG meeting encompassing all aspects of quality care and management. There are regular teaching sessions covering topics relevant to OMFS and DCTs are able to attend the mandatory regional teaching programme.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: All clinics and lists are with Consultant or senior supervision. There are 3-4 days clinics, one day theatre list and LA list as well as half day study session (Oral and Maxillofacial Surgery)

The standard working hours are:

The working pattern is a 1:6 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm. When in oncology lists finish times are variable and if finishing outside core hours the trainee can claim back these hours

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

ON-call is 1in6 and is onsite. There is a middle grade second on-call on site during the day and offsite out of hours and Consultant third on-call at home out of hours.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The local Induction takes place at BRI over the first week with protected time to attend. DCT1 are not expected to cover on-call duties within the first week.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with regular teaching sessions on topics related to Oral, Dental and Maxillofacial surgery and medicine. Trainees are encouraged to develop teaching presentation skills with confidence. There are monthly journal clubs and media based teaching as well.

Other opportunities

There is a monthly Clinical Governance meeting encompassing all aspects of quality patient care and management.

Encouragement is given to presenting projects and assisting in publications and presentations.

Local facilities

There is an excellent Postgraduate centre that offers a comprehensive range of Postgraduate training services including a dental phantom head lab and a simulation centre as well as ward based simulation teaching centre. The library

and information service is provided in association with the local authority service. The library houses a large stock of dental, oral and head and neck surgery volumes and takes all major current journals. Full inter-library loan and request service are available. There is access to relevant books on all aspects of medicine and healthcare alongside an Athens account for online resources.

Other facilities

Childcare facilities are available on-site for employed staff (space dependent). Computer facilities are provided within the department for DCTs who have their own departmental library and study room. Food and drink are available from the cafe and restaurant with out-of-hours vending machines.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 13, 14, 15, 16, 26)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Not applicable. 12 months fully based at Leeds Dental Institute

7. Travelling Commitment

Not applicable. Post is fully based at Leeds Dental Institute.

8. Additional Information about the Post

This is an exciting, innovative 2-year DCT run through post from DCT1 to DCT2. This document covers the DCT2 post, there is a separate document covering the DCT1 post.

It is not a split post but two posts that run through from one to another without a recruitment process for the second year.

Dental Core Training is focused towards producing a well rounded and broadly trained professional and this post seeks to deliver this aspiration. Currently, all HEEYH DCT1 posts are in Oral & Maxillofacial Surgery. The DCT2 component of the run through posts are in Paediatric Dentistry, Restorative Dentistry or Community Dentistry

Linking posts allows more diverse training in specialty, geography and environment.

It also allows job security and opportunities for collaboration between posts to enhance continued development of the trainee.

Department of Restorative Dentistry

Dental Core Trainees (DCTs) treat patients allocated by the Consultant staff, which will cover the full range of procedures in restorative dentistry of a suitable complexity. DCTs are expected to deal with the more difficult fixed and removable prosthetic cases which may include the following: oncology, developmental conditions, toothwear, patients with medical complications and difficulty in adapting to dental prostheses. They may have the opportunity to be involved with assessment and planning for dental implants.

In addition to prosthodontics, there is the opportunity for the DCT to develop their skills in non-surgical endodontics including the use of an operating microscope, rotary instruments and thermal obturation.

Comprehensive non-surgical periodontal care is undertaken by DCTs and there may be opportunity to observe and assist the more advanced surgical procedures. There may be the responsibility to supervise the Student Hygienists/Therapists as determined by the Head of Department and Director of Hygiene School and Therapy and also to refer suitable patients to DCPs.

Department of Acute Dental Care

The Department of Acute Dental Care provides a teaching and learning environment for the dental undergraduates in the diagnosis and management of acute dental conditions. The Dental Core Trainee's role is to provide dental care for medically compromised patients including dental assessments for patients due transplant or cardiac surgery who may/may not require some form of pre-surgical dental treatment. Liaison is required with Oral & Maxillofacial staff and Radiology staff during patient management. The Dental Core Trainee will also provide an emergency dental service for patients attending the department or to arrange for referral to one of the specialist departments as appropriate. On occasions the DCT may be required to supervise the undergraduate students who would normally be working under the direction of one of the Hospital Practitioners.

The Dental Core Trainee is encouraged to take part in projects, publications

and clinical audit activities in the various departments and attend the weekly Restorative Study Club. There may be opportunity to be involved in research. An assigned educational supervisor will support the trainee in developing their PDP.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:
7 treatment sessions (6 within the Restorative Department, 1 within the Acute Dental Care Department) 2 consultant new patient clinics 1 study/cover session.

The standard working hours are:

Monday to Friday 9am to 5pm

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

1 week local departmental induction including 'hands on' clinical skills training

Teaching programme

HEE YH Regional DCT study day programme

Local programme

Restorative Study Group once per week Tuesday 08:45 - 09:30.

Allocated an Educational Supervisor

Other opportunities

Opportunities for involvement in audit, publications, research

Opportunities for teaching of undergraduate students (if deemed suitable)

Local facilities

University of Leeds Library access

Office space - desk, computer, printing facilities

Other facilities

Kitchen

Cafes within the Worsley building and at Leeds General Infirmary

13. Employer

The details of the employing trust/organisation are:

Leeds Teaching Hospitals NHS Trust
St James University Hospital
Beckett Street
Leeds
West Yorkshire
LS9 7TF

You

(Mapped to DCT Curriculum points: C3 Oral Surgery - 4, 7, 12, 16, 26, 38, 52)

Clinical deliverable 6:

Regular access to the management of facial lacerations
Curriculum points: C3 Oral Surgery - 46, 40)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 5, 7, 35, 46, 48)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Bradford Royal Infirmary (BRI) is the main base at which the post-holder will be working. All on-call commitments are at BRI. There are several out-reach clinics to the peripheral hospitals (approximately 1 day per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between BRI and SLH is around 20 minutes by car. There is a free shuttle bus available from both hospitals (every 30 minutes peak times and hourly non-peak times) HRI is 9 miles from BRI and AGH is 15 miles from BRI. There are public buses to these hospitals but the easiest way to travel between all hospitals is using one's own car. Travel expenses will be re-imbursed

8. Additional Information about the Post

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
 - Adult and paediatric trauma,
 - Facial deformity (Orthognathic),
 - Skin cancer,
 - Head and neck cancer (surgery performed at Leeds).
 - Treatment of patients under local and general anaesthesia
- use of implants in rehabilitation of the oral cavity

As DCT2 you will be encouraged to develop surgical skills through tackling of more complex cases and taking a lead with DCT1s in terms of ward support. There is direct senior supervision in theatre, clinics and treatment sessions with support available at all times. Teaching both clinical and non-clinical is an important aspect of this post.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly CG meeting encompassing all aspects of quality care and management. There are regular teaching sessions covering topics relevant to OMFS and DCTs are able to attend the mandatory

regional teaching programme.

As DCT2 you will now be finalising your future career choices and support will be given for you to progress in the appropriate direction with good advice and sign posting as well as facilitation of shadowing or taster days.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: All clinics and lists are with Consultant or senior supervision. There are 3-4 days clinics, one day theatre list and LA list as well as half day study session (Oral and Maxillofacial Surgery)

The standard working hours are:

The working pattern is a 1:6 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm. When in oncology lists finish times are variable and if finishing outside core hours the trainee can claim back these hours

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

ON-call is 1in6 and is onsite. There is a middle grade second on-call on site during the day and offsite out of hours and Consultant third on-call at home out of hours.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. All DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The

local Induction takes place at BRI over the first week with protected time to attend. DCT2s will start the rota oncall after induction sessions.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with regular teaching sessions on topics related to Oral, Dental and Maxillofacial surgery and medicine. Trainees are encouraged to develop teaching presentation skills with confidence. There are monthly journal clubs and media based teaching as well.

Other opportunities

There is a monthly Clinical Governance meeting encompassing all aspects of quality patient care and management.

Encouragement is given to presenting projects and assisting in publications and presentations.

Local facilities

There is an excellent Postgraduate centre that offers a comprehensive range of Postgraduate training services including a dental phantom head lab and a simulation centre as well as ward based simulation teaching centre. The library and information service is provided and houses a large stock of dental, oral and head and neck surgery volumes and takes all major current journals. Full inter-library loan and request service are available. There is access to relevant books on all aspects of medicine and healthcare alongside an Athens account for online resources.

Other facilities

Childcare facilities are available on-site for employed staff (space dependent). Computer facilities are provided within the department for DCTs who have their own departmental library and study room. Food and drink are available from the cafe and restaurant with out-of-hours vending machines.

6. Rotational Post information

No specific rotation

7. Travelling Commitment

Significant distances between sites suitable only for own car owner and user

8. Additional Information about the Post

This post is an excellent opportunity to gain experience in both paediatric

dentistry and special care dentistry in a salaried dental service setting. Clinical supervision comes from specialists in both disciplines.

There will be opportunity to gain clinical experience in the following areas:

- Paediatric dentistry
- Access dentistry
- General dentistry, with more complex cases
- Sedation with relative analgesia
- General anaesthetic, treatment planning and clinical sessions
- Special care dentistry including domiciliary care
- Prosthetics
- Epidemiology

The clinical cases come from current service provision, referrals into the service, access patients and the dental waiting list. There will be opportunities to receive tutorials, have clinical supervision and shadow experienced clinicians. Clinical governance projects are encouraged with a view to presentation at national meetings. Whilst of itself a rewarding and valuable experience, the post would be of particular value to those who are interesting in pursuing careers in paediatric dentistry, special care dentistry and orthodontics.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

The details of the Primary Care element of this post are:

Full year is 80% in primary care setting

11. Pattern of Working

The approximate number of treatment sessions per working week is:
9 clinical sessions and 1 study session/week

The standard working hours are:
08.30 - 1700

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.
A Regional induction will be provided.
There will be NO opportunities for shadowing before the post commences.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Dental Core Training

Post: HEE Yorkshire and Humber - Hull University Teaching Hospitals - DCT2 - OMFS

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 2** level and has a duration of **12 Months**.

3. Location

Location 1

Castle Hill Hospital, Hull Royal Infirmary, NLAG Trust sites.

Dept of Oral and Maxillo-Facial Surgery

Castle Hill Hospital, Castle Rd, Cottingham HU16 5JQ

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

MOS taught on a one to one basis.

General OMFS (including oral medicine conditions), facial deformity/head and neck clinics/MDT. Day case GA for OS. Management of facial trauma.

Opportunity to progress surgical skills.

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The timetable is over a ten week cycle. Five of the weeks will be with an allocation to a specific area, e.g. Oral Surgery, deformity, oncology with sessions in clinics, day case theaters, MOS, and in patient operating built in to those session. The other five week cycle will be for on call with mandatory rest periods following daytime on call and before and after night time on call.

7. Travelling Commitment

The OMFS department at Hull utilise a "hot" and "cold" site. The out patients department, administrative building and in patient elective work all being delivered at Castle Hill Hospital (cold site).
Trauma and daycase GA operating is at Hull Royal Infirmary (hot site).

In addition we offer GA theatre lists and MOS/clinics at Goole, Scunthorpe and Grimsby sites (NLAG)

Hull Royal is in the centre and approximately 5 minutes walk from the train station.

Castle Hill is approximately 20 minutes drive from the train station and is served by public transport.

The satellite sites are approximately 40 minutes drive away and are served by buses/trains.

8. Additional Information about the Post

The trainee will have a well-supported rotation through our post.
MOS is on a one to one basis. General OMFS clinics will have a wide exposure to all aspects of OMFS including patients with oral medicine needs.
Day case GA offers one to one training in oral surgery.
Facial deformity sessions and in patient theatre sessions.
Oncology sessions includes attendance at head and neck clinics and MDT's.
In patient operating will give exposure to surgical management of head and neck malignancies.

The trainee is welcome to attend ward rounds and will be allocated to ward duties as part of their rotation.

Trainees are able to attend all deanery teaching sessions (6 in DCT 2) and bi-monthly teaching sessions are held in house.

We have clinical governance meetings every month and trainees are expected to present audits there. For those interested in research support will also be given.

As part of their OMFS DCT 2 year support will be given specifically to their DCT 2 learning requirements.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

This depends upon the particular point in the rotation you are in. DCT 2's are expected to take on more complex cases and seek out specific developmental objectives. e.g. Manage (with support) disto angular 8's or plating of simple mandibular fractures. An example week would include In patient theatre for a day, all day clinic, study/teaching session, MOS/clinic for two days. Another is day case GA for OS (AM) clinic (PM), MOS then clinic, study then MOS, in patient theatre all day, then clinic/ MOS

The standard working hours are:

Days typically start at 0800 and finish at 1730 Attendance after 1730 for major cases is not mandated but at the discretion of the trainee. On call block is from 0800 to 2000 with dedicated rest time before and after on call sessions.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

One day and night block per 10 week cycle. On call is divided into 3 nights max with time off before and after. Day and night on call is staggered over five weeks to incorporate mandatory rest periods. Resident on site for on call shift. 2nd on call present for daytime with 20 minute return to base after hours.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Trainees are welcome (and encouraged) to attend before post commencement.

6. Rotational Post information

Not applicable. 12 months fully based at Leeds Dental Institute

7. Travelling Commitment

Not applicable. Post is fully based at Leeds Dental Institute.

8. Additional Information about the Post

Department of Restorative Dentistry

Dental Core Trainees (DCTs) treat patients allocated by the Consultant staff, which will cover the full range of procedures in restorative dentistry of a suitable complexity. DCTs are expected to deal with the more difficult fixed and removable prosthetic cases which may include the following: oncology, developmental conditions, toothwear, patients with medical complications and difficulty in adapting to dental prostheses. They may have the opportunity to be involved with assessment and planning for dental implants.

In addition to prosthodontics, there is the opportunity for the DCT to develop their skills in non-surgical endodontics including the use of an operating microscope, rotary instruments and thermal obturation. Comprehensive non-surgical periodontal care is undertaken by DCTs and there may be opportunity to observe and assist the more advanced surgical procedures. There may be the responsibility to supervise the Student Hygienists/Therapists as determined by the Head of Department and Director of Hygiene School and Therapy and also to refer suitable patients to DCPs.

Department of Acute Dental Care

The Department of Acute Dental Care provides a teaching and learning environment for the dental undergraduates in the diagnosis and management of acute dental conditions. The Dental Core Trainee's role is to provide dental care for medically compromised patients including dental assessments for patients due transplant or cardiac surgery who may/may not require some form of pre-surgical dental treatment. Liaison is required with Oral & Maxillofacial staff and Radiology staff during patient management. The Dental Core Trainee will also provide an emergency dental service for patients attending the department or to arrange for referral to one of the specialist departments as appropriate. On occasions the DCT may be required to supervise the undergraduate students who would normally be working under the direction of one of the Hospital Practitioners.

The Dental Core Trainee is encouraged to take part in projects, publications and clinical audit activities in the various departments and attend the weekly Restorative Study Club. There may be opportunity to be involved in research. An assigned educational supervisor will support the trainee in developing their PDP.

Regular access to the management of facial lacerations

(Mapped to DCT Curriculum points: C3 Oral Surgery - 40, 46)

Clinical deliverable 6:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 16, 37)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Pinderfields Hospital (PGH) is the main base at which the post-holder will be working. All on-call commitments are at PGH. There are several out-reach clinics to the peripheral hospitals (approximately 1 clinic per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between each Hospital is around 30 minutes by car. There is a free shuttle bus available from Pinderfields Hospital (every 30 minutes peak times and hourly non-peak times)

8. Additional Information about the Post

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
- Adult and paediatric trauma,
- Facial deformity (Orthognathic),
- Skin cancer,
- TMJ surgery & Head and neck cancer (surgery performed at Leeds).
- Treatment of patients under local anaesthesia, IV sedation and general anaesthesia.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly meeting encompassing audit and journal club. There is a bimonthly teaching session covering topics relevant to OMFS and DCTs are made available to attend the mandatory regional teaching programme.

The department is combined with Orthodontics, and opportunities to shadow are possible. A monthly joint orthodontic-paediatric clinic and oral surgery-orthodontics clinic are also available to shadow.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: 2 Consultant/Specialty Dentist outpatient clinics (trauma, Maxillofacial Surgery and Oral Surgery), at least 1 GA or LA operating list (half or full day), 1 study session, 0.5 teaching session

The standard working hours are:

The working pattern is a 1:7 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm, 8pm-8:30am. Within a 7 week rotation, there will be a maximum of 7 days and 7 nights on-call (non-consecutive)

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

The acute service is totally interlinked with Leeds Teaching Hospitals. A multi-tiered on-call service between Wakefield and Leeds is provided. The 2nd (registrar level) and 3rd on-call (Consultant level) is shared between Leeds and Wakefield. However, the Dental Core Trainee is resident on-call for Pinderfields only.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The local Induction takes place at Pinderfields hospital over the first 2 weeks with protected time to attend. DCT1 are not expected to cover on-call duties within the first 2 weeks.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with 2 teaching sessions per month on topics related to Maxillofacial surgery, Oral surgery/Medicine and Orthodontics.

Other opportunities

There is a monthly Clinical Governance meeting encompassing audit and journal club.

Encouragement is given to presenting projects and assisting in publications.

Local facilities

The Postgraduate centre offers a comprehensive range of Postgraduate training services. The library and information service is provided in association

with the local authority service, and has three full-time librarians. The library houses 7000 volumes and takes 260 current journals. Full inter-library loan and request service are available. There is access to relevant books in Maxillofacial Surgery and Dentistry, alongside an Athens account for online resources.

Version 2020.1.1

Dental Core Training

Post: HEE Yorkshire and Humber - The Rotherham NHS Foundation Trust - DCT 2- OMFS

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 2** level and has a duration of **12 Months**.

3. Location

Location 1

The Rotherham NHS Foundation Trust

OMFS Department

Moorgate Road
Rotherham
S602UD

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Weekly supervised minor oral surgery list of 3-5 patients

Clinical deliverable 2:

Appropriate management of medically compromised patients (within outpatient, day-case and inpatient settings)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 6, 9, 21, 26, 52)

Clinical deliverable 3:

Recognition and management of oral lesions

(Mapped to DCT Curriculum points: C3 Oral Surgery - 17)

Clinical deliverable 4:

Management of emergency Maxillofacial admissions (dental trauma, maxillofacial trauma and oral-facial infections)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 49, 50, 51, 52, 53)

Clinical deliverable 5:

Regular access to the management of facial lacerations

(Mapped to DCT Curriculum points: C3 Oral Surgery - 46, 40)

Clinical deliverable 6:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 16, 30)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The post-holder will spend the majority of their time at Rotherham Hospital, but will also rotate to Mexborough Montagu Hospital, where they will attend out-patient clinics and day surgery theatres, according to a rolling timetable.

7. Travelling Commitment

The post-holder will be expected to travel to Mexborough hospital as part of the rolling programme, typically 1 week in 8 is spent in at Mexborough Montagu Hospital. The journey is approximately 11 miles and takes 25 minutes by car. The journey takes 60 minutes by public transport, transport by taxi is recommended and paid for, for those who do not drive.

Travel expenses can be claimed, if the post-holder wishes to claim for use of their own car appropriate business insurance is required.

8. Additional Information about the Post

The post-holder will spend the majority of their time at Rotherham General Hospital, but will also rotate to Mexborough Montagu Hospital, where they will attend out-patient clinics and day surgery theatres, according to a rolling timetable.

Clinical duties of the postholder:

- Attendance at Day Surgery and In-Patient theatre operating lists.
- Assistance in the operating theatre.
- Attendance at Minor Oral Surgery local anaesthetic operating sessions.
- Attendance at OMFS out-patient clinics (there is also scope for trainees to attend Orthodontic clinics according to their individual training needs or wishes).
- Assessment and initial management of patients referred to the OMFS department from A+E, GDPs, GPs, and other hospital departments.
- Clerking of patients for theatre.
- Management of OMFS in-patients on the wards.

The Maxillofacial Surgery Unit undertakes a wide range of treatments. Of particular value to the post-holder is that they will have ample opportunity in this post to gain exposure to dentoalveolar surgery under both local anaesthetic and general anaesthetic. The post-holder will be encouraged to carry out Minor Oral Surgery as appropriate to their level of experience, with senior advice and supervision available at all times.

The department treats a large volume of maxillofacial trauma. In addition to the routine management of trauma the consultants in the department are experienced in the use of up-to-date techniques such as endoscopically assisted fixation of fractures of the mandibular condyle, and orbital reconstruction using custom-made orbital implants. Approximately 350 emergency cases are operated on in the department per year.

Special interests within the department are head and neck cancer surgery, salivary gland surgery (including the management of salivary gland calculi using sialoendoscopy), orthognathic surgery, the surgical management of skin cancers of the head and neck, and implant surgery.

Patients with head and neck mucosal malignancy are diagnosed in the departments at Rotherham and Mexborough, with all major Head and Neck cancer surgery operating carried out at the Head and Neck Cancer surgical centre at the Royal Hallamshire Hospital in Sheffield. The post-holder has the opportunity included in their timetable to attend the Head and Neck operating sessions at the Royal Hallamshire Hospital along with Mr Patterson.

The posts require the occupant to provide on call services, and to be resident in the hospital during on call periods: a free on call room will be provided. Whilst on call the post-holder is based at Rotherham General Hospital. The on call shifts are determined by an 8-week rolling rota. There is on call middle grade support for the junior staff provided by the 5 StRs in the region.

There is a strong commitment to teaching from the senior staff in the department, and a weekly teaching session is held within the department. There are bimonthly Audit / Clinical Effectiveness meetings which are held in Rotherham. The postholder will be encouraged to complete an audit project,

management project or sustainability project every 6 months and will receive assistance and guidance with this. Presentation of audit and research projects at regional and national meetings is encouraged. Rotherham Hospital has an excellent postgraduate medical education and clinical skills department.

In addition the post-holder will be asked to manage the Thursday teaching morning teaching session and complete a management/sustainability project in addition to an audit.

Additional MDT Clinics: Joint OMFS/Orthodontic Mexborough and Rotherham, Joint Orthodontic Restorative Rotherham

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

The standard working hours are:

Supervised treatment of special care adults under sedation

(Mapped to DCT Curriculum points: C5 Special Care Dentistry - 5, 6, 15, 17)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

No specific rotation

7. Travelling Commitment

Significant distances between sites A driving licence and own transport are desirable

8. Additional Information about the Post

This post is an excellent opportunity to gain experience in both paediatric dentistry and special care dentistry in a salaried dental service setting. Clinical supervision comes from specialists in both disciplines.

There will be opportunity to gain clinical experience in the following areas:

- Paediatric dentistry
- Access dentistry
- General dentistry, with more complex cases
- Sedation with relative analgesia
- General anaesthetic, treatment planning and clinical sessions
- Special care dentistry including domiciliary care
- Prosthetics
- Epidemiology

The clinical cases come from current service provision, referrals into the service, access patients and the dental waiting list. There will be opportunities to receive tutorials, have clinical supervision and shadow experienced clinicians. Clinical governance projects are encouraged with a view to presentation at national meetings. Whilst of itself a rewarding and valuable experience, the post would be of particular value to those who are interesting in pursuing careers in paediatric dentistry, special care dentistry and orthodontics.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post involves working in Primary Dental Care

This post requires that you are eligible to be included in the NHS Dental Performers List

The details of the Primary Care element of this post are:

Full year is 80% in primary care setting

11. Pattern of Working

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Access to new patient clinic, minimum weekly 3-5 patients

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 13, 15, 14, 16, 17, 20, 21, 25, 24, 26, 31, 38, 41, 44, 9, 10, 12)

Clinical deliverable 2:

MOS clinic minimum weekly

(Mapped to DCT Curriculum points: C3 Oral Surgery - 23, 52, 48, 47, 46, 44, 43, 42, 41, 40, 18, 17, 16, 14, 12, 10, 7)

Clinical deliverable 3:

Supported on call and ward duties (1 in 6 for each)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 51, 50, 49, 46, 45, 40, 26, 39, 52, 42, 41, 34, 25, 21)

Clinical deliverable 4:

Theatre

(Mapped to DCT Curriculum points: C3 Oral Surgery - 35, 37, 36, 40, 42, 43, 46, 48, 12)

You can access a copy of the DCT Curriculum at:

<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Each trainee will be "attached" to a consultant for an eight week period.

Attachments rotate to allow a broad experience of, and development within, a variety of sub-specialties.

Travel to peripheral units offers excellent opportunities for one to one training and WBAs. This work will be shared fairly to avoid unfair travel burden.

7. Travelling Commitment

Travel by car between units detailed above.

A driving licence and own transport are desirable, however there is possible access to trust vehicles during DCT1 subject to application and availability.

8. Additional Information about the Post

- Clinical work on the ward and in the emergency department including an evening and weekend on-call duty.
- Supporting Consultants, SAS Doctors and Registrars in theatre, including major head and neck cancer cases with free flap reconstruction.
 - o As part of your support in theatre, you will receive training in a broad spectrum of maxillofacial procedures including oral surgery and skin cancer

surgery.

- Out-patient clinics – oral surgery procedures, skin cancer biopsies and new patient consultations.
- All clinics are supported by a consultant, SAS Dr or SpR.
- Active involvement in clinical governance activity within the department including, audit and service evaluation/improvement.
- Involvement in departmental teaching is expected.
- Close ties with the restorative and orthodontic departments allows those with interest opportunities to shadow as timetabling allows.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Clinic 4pw Theatre 4pw SPA (study/personal/patient admin) 1pw Teaching
1in7wk additional to study days

The standard working hours are:

Standard Shift 08:00-18:00 Day Ward Shift 07:45-17:00 Late Ward/on-call Shift
14:00-00:00 Oncology Theatre 14:00-00:00 Weekend and BH shifts
08:00-20:00 Weekends, Ward/Late shifts and oncology theatre rotate on an
average 1 in 6 (1in5/1in7) flexible for leave. Sickness will be covered with pay
at locum rates where applicable.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	No
Weekends	Yes	Yes	No

The details are:

- All on call is resident and based at York Hospital.
- On call is fully supported by non-resident SAS or SpR and Consultant.
- No travelling between sites is required when on call.
- DCT1 on-call component is on a 1 in 6 rota (EWTD compliant) shared with DCT2 and LDFT2. (LDFT1s cover daytime ward only)
- Weekday On call shift hours are 15:00 – 00:00
- Oncology theatre shift hours 15:00 – 00:00 with zero hours the following day.
- Weekend on call shifts are 08:00-20:00.
- Zero hours allowances are given prior to and after the weekend shifts for EWTD compliance.
- Daytime ward duty is also a 5 day block covered on a 1 in 6 rota but classed as normal clinical work for timetabling purposes.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

Please see below.

Please contact TPD to arrange shadowing

Teaching programme

Mandated Regional DCT2 Study Day programme of 6 days including specific professional development projects for presentation

Local programme

There is a weekly trainee led, SpR facilitated tutorial and journal club, and a one in 5 weekly half-day teaching session. A consultant, SpDr or SpR facilitate the half-day session.

We expected that this teaching to be trainee driven, with each trainee delivering at least one prepared session to their colleagues. Topics will be in line with the DCT curriculum.

Other opportunities

There is a research department based at York Hospital/HYMS. Involvement with research is actively encouraged and supported.

Local facilities

Both York and Scarborough hospitals have excellent libraries, with study and conference rooms. Office space for SPA and patient admin is available in the department.

Other facilities

A doctors mess with hot drinks, fruit, biscuits, bread and Sky tv is available to those who pay a small mess fee by salary deduction. Regular social events are held.

Clinical deliverable 3:

Enhance reporting skills of plain film radiographs, ultrasounds and cone-beam CT taken in the head and neck

(Mapped to DCT Curriculum points: C8 Dental and Maxillofacial Radiology - 19, 11, 1, 2, 3, 4, 5, 8, 9, 10, 12, 13, 14, 15, 20, 21)

Clinical deliverable 4:

Understand the laboratory processes and report slides of samples from the head and neck region, prepared for histopathological analysis

(Mapped to DCT Curriculum points: C7 Oral and Maxillofacial Pathology - 4, 1, 2, 3, 19, 18, 6, 9, 11, 13, 14, 20, 21, 22, 24)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

The base hospital for this post will be the Leeds Dental Institute. Oral Medicine clinics and Oral and Maxillofacial Radiology sessions are undertaken there, whereas Oral Pathology sessions will take place at St James' University Hospital.

The trainee will be offered development opportunities in the related disciplines of Oral Medicine, Dental & Maxillofacial Radiology and Oral & Maxillofacial Pathology. All 3 disciplines deliver a regional service that will provide the trainee with a broad clinical grounding as well as offering opportunities to focus on areas of particular interest. There is exposure to multidisciplinary working with a range of dental and medical specialties.

This academic portion of the post (pro-rata 1 day per week) will provide an excellent opportunity for an academically motivated DCT to develop. The post incorporates protected time for a certificate level qualification (Postgraduate Certificate in Health Research Methods) and specific projects that link with established academic activities.

The post is of particular relevance to preparation for a future application to specialty training in dentistry.

7. Travelling Commitment

There is a free shuttle bus service between sites which are approximately 2.5 miles apart and takes approximately 20 minutes. There are 3 shuttles per hour during ordinary working hours. Leeds main train station is a short walk from the Dental Institute and offers good links to major cities in the UK.

8. Additional Information about the Post

The post-holder will gain experience into the management of patients with a wide spectrum of oral disease which may also be medically-related. These will encompass oral mucosal pathologies such as lichen planus, vesiculobullous diseases, the manifestations of Crohn's disease and candidosis amongst many others. They will also see patients with a variety of benign oral mucosal lesions which may require sampling or removal, including fibroepithelial polyps, squamous cell papillomas and mucocoeles. There will be opportunity to see patients with salivary gland disease such as Sjogren's syndrome or the oral manifestations of Graft Versus Host Disease. They will be involved in the care of patients with a wide spectrum of orofacial pain conditions including oral dysaesthesias, TMD, trigeminal neuralgia and persistent idiopathic facial pain.

In all three specialties, opportunity to undertake clinical audit will be available - several post holders complete more than one during their year with us. Opportunity to present at relevant local, regional and national meetings is encouraged and supported.

As the candidate progresses through the post, there will be opportunity to

undertake supervision and teaching of undergraduate dental students on the Oral Medicine clinic, with support from senior members of the team.

The Oral Medicine team meets weekly to discuss current matters arising, present audit findings and undertaken other educational activities which will provide learning opportunities for the post holder also.

There is no on call commitment with this post.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

The Oral Medicine component involves attendance at 3-4 consultants clinics per week where you will see new and review patients. One session a fortnight will be assigned as a biopsy list. 2 sessions per week will be undertaken in the Dental Radiology department where the opportunity to undertake a selection of radiological investigations and drafting of patient reports will be undertaken. 1-2 sessions per week will allow time to undertake academic activities such as the Post Graduate Certificate in Research Methods. Some of these sessions will be self-directed and a few will be day long face-to-face sessions, for which study leave will need to be applied for and granted. One session per week is allotted to administrative tasks associated with the suggested template timetable outlined above.

The standard working hours are:

The hours are Monday to Friday, 9 to 5 only.

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

Teaching programme

As a DCT 3 level post, you will not be expected to routinely attend the regional teaching provided by HEE however, attendance for training on areas identified in the post holder's Personal Development Portfolio will be supported, provided study leave has been applied for in good time, as set out by local policy.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres.

Local programme

The post holder will have a named Educational Supervisor allotted on appointment to the post. Regular meetings will be scheduled throughout the year in line with the Dental Core Training Review of Competence Progression document.

The weekly Oral Medicine departmental meeting provides educational opportunities including the discussion of difficult cases, journal club activities and clinical governance matters.

Other opportunities

It is expected that the post holder will carry out at least one audit during their year in post.

Opportunities for involvement in research projects will be discussed individually with the successful applicant.

Local facilities

Office space, including a shared computer and use of networked printing will be made available to the post holder.

Other facilities

Child care facilities are available through the Trust.

There are several cafes available in the Worsley Building for snacks and lunch, plus a staff room with fridge space and microwave facilities is available.

13. Employer

The details of the employing trust/organisation are:

Leeds Teaching Hospitals NHS Trust, St. James's University Hospital, Beckett Street, Leeds, West Yorkshire, LS9 7TF

Dental Core Training

Post: HEE Yorkshire and Humber - Leeds Dental Institute - DCT3 - Restorative

Please note, the information contained in this post description is indicative and subject to change.

1. Region

This post is situated in **Health Education England - Yorkshire and the Humber** Region.

2. Level of training post and duration

This post is at **DCT 3** level and has a duration of **12 Months**.

3. Location

Location 1

Leeds Dental Institute

Restorative Department and Acute Dental Care Department

Leeds Dental Institute
Worsley Building
Clarendon Way
Leeds
LS2 9LU

4. Specialities and/or clinical focus within post

The main specialities of this post are:

Restorative Dentistry

Acute/Emergency Dental Care

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Two supervised new patient consultant clinics per week. Case mix based on rota will include Prosthodontics, Periodontics, Endodontics, Oncology & Developmental clinics including assessment & planning for dental implants.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 1, 2, 3, 4, 5, 10, 14, 15, 16, 17, 25)

Clinical deliverable 2:

6 restorative treatment sessions per week of which at least 3 will be supervised with a dedicated consultant supervisor.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 1, 2, 6, 7, 8, 9, 10, 11, 13, 18, 19, 20, 21, 22, 23, 24, 26, 27, 28, 29, 30)

Clinical deliverable 3:

Opportunity to carry out non-surgical endodontic treatments and re-treatments with consultant supervision and support. Use of microscope, rotary instruments and thermal obturation available.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 1, 6, 11, 16, 18, 19, 24, 26, 27, 30)

Clinical deliverable 4:

Opportunity to carry out fixed and removable prosthodontics including challenging removable prosthodontic cases and treatment planning & management of toothwear.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 1, 7, 8, 9, 11, 17, 18, 19, 21, 22, 23, 26, 29)

Clinical deliverable 5:

Opportunity to carry out non-surgical periodontal therapy and develop treatment planning skills in periodontology.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 1, 2, 3, 4, 19, 20, 28)

Clinical deliverable 6:

1 session per week on Acute Dental Care; provision of dental care for medically compromised patients, dental assessment and treatment for patients due transplant/cardiac surgery and emergency dental care.

(Mapped to DCT Curriculum points: C1 Restorative Dentistry - 13, 14, 15, 16, 26)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Not applicable. 12 months fully based at Leeds Dental Institute

7. Travelling Commitment

Not applicable. Post is fully based at Leeds Dental Institute.

8. Additional Information about the Post

Department of Restorative Dentistry

Dental Core Trainees (DCTs) treat patients allocated by the Consultant staff, which will cover the full range of procedures in restorative dentistry of a suitable complexity. DCTs are expected to deal with the more difficult fixed and removable prosthetic cases which may include the following: oncology, developmental conditions, toothwear, patients with medical complications and difficulty in adapting to dental prostheses. They may have the opportunity to be involved with assessment and planning for dental implants.

In addition to prosthodontics, there is the opportunity for the DCT to develop their skills in non-surgical endodontics including the use of an operating microscope, rotary instruments and thermal obturation. Comprehensive non-surgical periodontal care is undertaken by DCTs and there may be opportunity to observe and assist the more advanced surgical procedures. There may be the responsibility to supervise the Student Hygienists/Therapists as determined by the Head of Department and Director of Hygiene School and Therapy and also to refer suitable patients to DCPs.

Department of Acute Dental Care

The Department of Acute Dental Care provides a teaching and learning environment for the dental undergraduates in the diagnosis and management of acute dental conditions. The Dental Core Trainee's role is to provide dental care for medically compromised patients including dental assessments for patients due transplant or cardiac surgery who may/may not require some form of pre-surgical dental treatment. Liaison is required with Oral & Maxillofacial staff and Radiology staff during patient management. The Dental Core Trainee will also provide an emergency dental service for patients attending the department or to arrange for referral to one of the specialist departments as appropriate. On occasions the DCT may be required to supervise the undergraduate students who would normally be working under the direction of one of the Hospital Practitioners.

The Dental Core Trainee is encouraged to take part in projects, publications and clinical audit activities in the various departments and attend the weekly Restorative Study Club. There may be opportunity to be involved in research. An assigned educational supervisor will support the trainee in developing their PDP.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:
7 treatment sessions (6 within the Restorative Department, 1 within the Acute Dental Care Department) 2 consultant new patient clinics 1 study/cover

session.

The standard working hours are:
Monday to Friday 9am to 5pm

There is **NO** on-call commitment.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

Opportunities for shadowing before the post commences are subject to local negotiation.

1 week local departmental induction including 'hands on' clinical skills training

Teaching programme

HEE YH Regional DCT study day programme

Local programme

Restorative Study Group once per week Tuesday 08:45 - 09:30.

Allocated an Educational Supervisor

Other opportunities

Opportunities for involvement in audit, publications, research

Opportunities for teaching of undergraduate students (if deemed suitable)

Local facilities

University of Leeds Library access

Office space - desk, computer, printing facilities

Other facilities

Kitchen

Cafes within the Worsley building and at Leeds General Infirmary

13. Employer

7. Travelling Commitment

Not applicable. Post is fully based at Leeds Dental Institute.

8. Additional Information about the Post

Academic Training

The academic supervisor and the wider research team provide close support

to the post holder. It is anticipated that the post holder, as a minimum, will present their research findings at the HEE Y&H Academic Foundation day which is held in June.

The post holder will have one day a week allocated to research. There will be two components to the research training:

(i) to undertake a Postgraduate Certificate in Health Research Methods (https://medhealth.leeds.ac.uk/coursefinder/25052/PGCert_Health_Research?from=&categoryID=). This is a six month course which provide the post holder with a robust foundation in research methods. While this equates to approximately one day a week, the trainee needs to commit to undertake coursework and assessments in their own time.

(ii) a six month exposure to an established research group where the post holder will be actively engaged in data collection and analysis. It is anticipated that the post holder will have minimal responsibility for grant writing, applying for ethics and other research permissions or writing up the results for publication.

This academic DCT post will provide an excellent opportunity for an academically motivated DCT to enhance their skills. The post incorporates protected time for academic pursuits (1 day per week) which link into an established research team

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

Oral Surgery

Quality Improvement

**General Duties (please clarify further) HEAD NECK
ONCOLOGY RECONSTRUCTION**

Research

**General Duties (please clarify further) CRANIOFACIAL
TRAUMA/ORTHOGNATHIC SURGERY**

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Supervised Minor Oral Surgery Lists of 3-5 Patients (mapped to c3-28,29,30)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 22)

Clinical deliverable 2:

Appropriate management of medically compromised patients (within outpatient, day-case and inpatient settings)

Mapped to DCT Curriculum points: C3 Oral Surgery - 52, 6, 9, 21, 26

(Mapped to DCT Curriculum points: C3 Oral Surgery - 4, 5, 6, 7, 8, 9)

Clinical deliverable 3:

Recognition and management of oral lesions

Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 4, 14, 22, 24

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53)

Clinical deliverable 4:

Management of emergency Maxillofacial admissions (dental trauma, maxillofacial trauma and oral-facial infections)

Mapped to DCT Curriculum points: C3 Oral Surgery - 53, 10, 30, 49, 50, 51, 52

(Mapped to DCT Curriculum points: C3 Oral Surgery - 7, 8, 9, 10, 11, 12, 13, 14)

Clinical deliverable 5:

Regular access to the management of facial lacerations

Mapped to DCT Curriculum points: C3 Oral Surgery - 46, 40

(Mapped to DCT Curriculum points: C3 Oral Surgery - 11, 12, 13, 14, 15)

Clinical deliverable 6:

Consultant supervised implant assessment clinic

mapped to C1-12, 14

(Mapped to DCT Curriculum points: C3 Oral Surgery - 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Training is delivered with a 10 week rota, with 2 of these weeks being in Barnsley Hospital.

7. Travelling Commitment

There are good transport links between Sheffield and Barnsley, via train or bus and it takes an hour however easiest way to travel is with a car. The distance is 17 miles. and takes about 25 minutes to travel between the two sites.

8. Additional Information about the Post

We have one of the biggest MDT in the country and the full scope of oral and maxillofacial surgery is practiced at Sheffield. In addition we have one of the biggest dental school /medical school in the region with excellent links to the academic departments.

A DCT 3 trainee can gain further exposure in Oral and maxillofacial surgery. Plenty of opportunities for research and audits. Trainees are encouraged to develop leadership skills and are encouraged to register for a research project. They will be required to complete training the trainer course and other leadership courses which will prepare them for a career in oral /oral & maxillofacial surgery.

We are affiliated to the University of Sheffield & Hallam which opens the doors for endless opportunities for the right candidate.

Depending upon the competency of the trainee independent MOS lists, increased surgical exposure including harvesting & inset of skin grafts, tracheostomy, Oro antral fistula closures, simple mandibular fracture fixation/ Zyogma fractures will be undertaken under supervision. DCT 3 Trainees will also be expected to take an active role in teaching the DCT 1 and study days including rota management of oncall which will develop their managerial skills.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

During a 10 week period there are a minimum of 5 opd clinics Including specialist clinics. 5 Minor Operating Sessions with hands on exposure to MOS/ lacerations and minor trauma. 5 theatre sessions including hands on Minor oral surgery, assisting in major head and neck oncology reconstruction cases, orthognathic, implants , paediatric oral surgery lists. Usual times are between 0800-1700hrs, however for oncology theatres the finish time is at 1930hrs, each week the DCT will work a maximum of 40 hrs. Adequate rest periods are ensured .Every Friday afternoon is dedicated teaching /study session (except for the oncall)

The standard working hours are:

Usual times are between 0800-1700hrs,.Oncology theatres the finish time is at 1930hrs, each week the DCT will work a maximum of 40 hrs. Adequate rest periods are ensured .Every Friday afternoon is dedicated teaching /study session.

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	Yes	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

All the oncalls are on site and are based at the Royal Hallamshire Hospital. There are two blocks of oncall for weekdays (day & night) and two blocks of oncall for weekends/days/nights in a 10 week rota . out of 10 blocks 4 blocks are dedicated for oncall, there is middle grade support from 0800 to 2200hrs and 24/7 consultant cover. Each unit of oncall is 12 hours either day time or nights, each shift begins at 0800hrs and ends at 2000hrs, the evening shift begins at 2000hrs and ends the next day at 0800hrs. . There is hospital at night who will help the night oncall DCT with routine duties. Following 4 days or nights of oncall there is a gap of 2 days for rest.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.
A Regional induction will be provided.
There will be opportunities for shadowing before the post commences.

Teaching programme

2 -3 FRIDAY AFTERNOONS EVERY MONTH , ALL ASPECTS OF ORAL & MAXILLOFACIAL SURGERY COVERED

Local programme

Educational supervisors allocated within 2 weeks
Journal clubs and clinical governance meetings are conducted once every two months

Other opportunities

Candidates are expected to participate in audit and research, We have a very active department and can liaise with other academic departments and the University of Sheffield/Hallam.

Local facilities

Medical school library with comprehensive access
There is a dedicated DCT room with computer and desk
Office accommodation for the Dental Core Trainees is located in the basement of Charles Clifford Dental Hospital. This office has telephones, IT equipment and presentation equipment which fully supports the service and training element of the work the DCTs carry out here.

Other facilities

Dedicated ocall room available on the ward, 24 hours vending machines available D floor Royal Hallamshire Hospital. Within CCDH there is a coffee lounge and snack bar which is available from 8.30am in the morning until 3.30pm. Breakfast can be obtained 8.30am-11.00am from the servery. A selection of sandwiches, salads, jacket potatoes and hot snacks plus various drinks both hot and cold are served throughout the day. Hot drinks can be obtained from the vending machine on the ground floor waiting area when the servery is closed and also cold drinks from the coffee lounge itself. This area is not available to patients and visitors, only staff and students of the Dental Hospital and School.

13. Employer

4. Specialities and/or clinical focus within post

The main specialties of this post are:

Oral and Maxillofacial Surgery

5. Key clinical deliverables that can be achieved within this post

Clinical deliverable 1:

Regular Dento-alveolar lists with supervision

Curriculum points: C3 Oral Surgery - 3, 27, 28, 33, 43, 47)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 3, 5, 6, 7, 9, 10, 11, 12, 14, 16, 17, 18, 19, 20, 22, 24, 27, 28, 32, 33, 35, 36, 40, 41, 43, 44, 47, 46, 48)

Clinical deliverable 2:

Appropriate management of medically compromised patients (within outpatient, day-case and inpatient settings)

Curriculum points: C3 Oral Surgery - 52, 6, 9, 21, 26

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 2, 3, 4, 22)

Clinical deliverable 3:

Recognition and management of oral lesions

Curriculum points: C3 Oral Surgery - 1, 2, 4, 14, 22, 24

(Mapped to DCT Curriculum points: C3 Oral Surgery - 1, 3, 14, 22, 47)

Clinical deliverable 4:

Management of emergency Maxillofacial admissions (dental trauma, maxillofacial trauma and oral-facial infections)

Curriculum points: C3 Oral Surgery - 53, 10, 30, 49, 50, 51, 52)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 7, 38, 39, 42, 45, 51, 52, 49, 50, 25)

Clinical deliverable 5:

Diagnosis and treatment options for the orthodontic-surgical patient (Dental anomalies, impacted teeth and Orthognathic surgery)

Curriculum points: C3 Oral Surgery - 37, 16)

You

(Mapped to DCT Curriculum points: C3 Oral Surgery - 4, 7, 12, 16, 26, 38, 52)

Clinical deliverable 6:

Regular access to the management of facial lacerations
Curriculum points: C3 Oral Surgery - 46, 40)

(Mapped to DCT Curriculum points: C3 Oral Surgery - 5, 7, 35, 46, 48)

You can access a copy of the DCT Curriculum at:
<https://www.copdend.org/postgraduate-training/dental-core-training-curriculum/>

6. Rotational Post information

Bradford Royal Infirmary (BRI) is the main base at which the post-holder will be working. All on-call commitments are at BRI. There are several out-reach clinics to the peripheral hospitals (approximately 1 day per week), which the post-holder will need to attend on a rotational basis

7. Travelling Commitment

The distance between BRI and SLH is around 20 minutes by car. There is a free shuttle bus available from both hospitals (every 30 minutes peak times and hourly non-peak times) HRI is 9 miles from BRI and AGH is 15 miles from BRI. There are public buses to these hospitals but the easiest way to travel between all hospitals is using one's own car. Travel expenses will be re-imbursed

8. Additional Information about the Post

This is an excellent post for consolidating DCT1 and 2 level of experience for someone interested in a further career in Oral Surgery via Specialty Training or those considering a future career in OMFS and awaiting entry to medical school.

The post includes second on-call to allow trainees to experience the position of leading on initial management of trauma patients and guiding and supporting DCT1 and DCT2s who are first oncall. There is ample opportunity to learn more advanced surgical procedures such as facial fracture reduction and enucleation of dental cysts etc as part of the further development of DCT training.

The post-holder will gain experience of all aspects of OMFS including

- Dento-alveolar surgery,
 - Adult and paediatric trauma,
 - Facial deformity (Orthognathic),
 - Skin cancer,
 - Head and neck cancer (surgery performed at Leeds).
 - Treatment of patients under local and general anaesthesia
- use of implants in rehabilitation of the oral cavity

As DCT3 you will be encouraged to develop surgical skills through tackling of more complex cases and taking a lead with junior DCTs in terms of ward support.

There is direct senior supervision in theatre, clinics and treatment sessions with support available at all times. Teaching both clinical and non-clinical is an important aspect of this post and as a DCT3 you will be expected to lead on teaching sessions.

Protected time is provided to enable the post-holder to undertake Clinical Governance projects. Encouragement is given to presenting projects and assisting in publications. There is a monthly CG meeting encompassing all aspects of quality care and management. There are regular teaching sessions covering topics relevant to OMFS and DCTs are able to attend the mandatory regional teaching programme. DCT3 can develop their own study programme that will be guided by their PDP.

As DCT3 you will now be finalising your future career choices and support will be given for you to progress in the appropriate direction with good advice and sign posting as well as facilitation of shadowing or taster days.

9. Temporary Registrants

This post is **NOT** suitable for temporary registrants.

10. Primary Dental Service

This post **does not** involve working in Primary Dental Care

11. Pattern of Working

The approximate number of treatment sessions per working week is:

Approximately per week: All clinics and lists are with Consultant or senior supervision. There are 3-4 days clinics, one day theatre list and LA list as well as half day study session (Oral and Maxillofacial Surgery)

The standard working hours are:

The working pattern is a 1:6 full-shift. The post is resident for on-call duties. Normal working hours are 8am-5:30pm with on-call shifts 8am-8:30pm. When in oncology lists finish times are variable and if finishing outside core hours the trainee can claim back these hours

There is an on-call commitment, the pattern of which is:

	Daytime	Evening	Overnight
Weekdays	No	Yes	Yes
Weekends	Yes	Yes	Yes

The details are:

On-call is 1in6 second on call but DCT3 will be expected to attend for any calls that require travelling into hospital when out of hours. There is a Consultant third on-call at home out of hours. As DCT3 you will gain more advanced surgical skills and be encouraged to operate on facial fractures/dento-alveolar abscesses and any other procedure deemed suitable for this level to complete

with direct or indirect supervision commensurate with your experience.

12. Educational & Induction programme including Trust and library facilities

The Educational and Induction Programme includes:

Induction

A Trust induction will be provided.

A Regional induction will be provided.

There will be opportunities for shadowing before the post commences.

All DCT1 and DCT2 (without prior OMFS experience) are encouraged to attend the Regional CITY OMFS Induction course. All DCTs are encouraged to attend the department to shadow prior to starting their post. There is shadowing experience built into the local induction programme. The local Induction takes place at BRI over the first week with protected time to attend. DCT3s will start the rota oncall after induction sessions.

Teaching programme

DCTs are encouraged to attend the mandatory regional teaching programme through HEE.

Study leave is granted in accordance with Dental Silver Guide 2018 recommendations and junior staff are encouraged to attend courses at relevant Teaching Centres

Local programme

All Dental Core Trainees will be allocated an Educational Supervisor upon appointment.

The local teaching programme is provided with regular teaching sessions on topics related to Oral, Dental and Maxillofacial surgery and medicine. Trainees are encouraged to develop teaching presentation skills with confidence. There are monthly journal clubs and media based teaching as well.

Other opportunities

There is a monthly Clinical Governance meeting encompassing all aspects of quality patient care and management.

Encouragement is given to presenting projects and assisting in publications and presentations.

Local facilities

There is an excellent Postgraduate centre that offers a comprehensive range of Postgraduate training services including a dental phantom head lab and a simulation centre

as well as ward based simulation teaching centre. The library and information service is provided and houses a large stock of dental, oral and head and neck surgery volumes and takes all major current journals. Full inter-library loan and request service are available. There is access to relevant books on all aspects of medicine and healthcare alongside an Athens account for online resources.

Other facilities

Childcare facilities are available on-site for employed staff (space dependent). Computer facilities are provided within the department for DCTs who have their own departmental library and study room. Food and drink are available from the cafe and restaurant with out-of-hours vending machines.

13. Employer

The details of the employing trust/organisation are:
Bradford Teaching Hospitals NHS Foundation Trust
Duckworth Lane
BD9 6RJ
